

SUMMARY

Enthusiastic and proactive professional actively seeking an organization that fosters growth and innovation. Highly adaptable, eager to learn, and capable of working collaboratively to deliver high-quality software projects.

WORK EXPERIENCE

Software Engineer | Synergim

June 2023 - Present

- Proficient in testing RESTful APIs using Postman tool for functionality and performance evaluation.
- Utilized Firebase for implementing authentication and Firestore database features in web applications.
- Implemented CRUD operations on a blog site using MongoDB and MySQL databases.
- Applied Agile, Scrum, and Kanban methodologies in software development.
- Developed mobile applications with React Native and Firebase backend, integrating ChatGPT and external APIs for fetching Google reviews.
- Acquired insights into Machine Learning and Generative AI technologies.
- Familiar with Swagger for API documentation, Zapier for automation, and SEO optimization strategies.

Frontend Developer | Remostart

Nov 22 - Jan 2023

- Designed various web pages like the homepage, login, and Signup credentials.
- Developed using React Js framework
- Actively used Git version control system, contributing to code collaboration and repository management.
- Improved communication skills by actively participating in team discussions and exchanging ideas

LEADERSHIP EXPERIENCE

Raisoni Institute's Brio Toastmasters Club

Secretary

Nov 22 - Oct 23

Documented the Minutes of Meeting (MOM) and created a detailed report of the club meeting, while also fulfilling various roles such as delivering speeches and participating in the impromptu round.

IEEE Computer Society (IEEE CS)

Execom Lead

2021 - 2022

Managed and organized events, conducted sessions as a host, and took charge of content writing and poster creation.

EDUCATION

G. H. Raisoni College of Engineering

2020 - 2024

Nagpur | MH

B.Tech | Computer Science

CGPA: 8.93

Isabella Thoburn Intermediate College

2018 - 2020

Lucknow UP

State Board | PCM

ST. Theresa's School

2016 - 2018

Hardoi | UP

ICSE Board

PROJECT

• Review Lite App

An iOS app tailored for small business owners seeking valuable feedback and reviews for their businesses. Demonstrates expertise in React Native development, API integration, and leveraging AI for enhanced user experiences.

• Smart Home Energy Optimization Analysis

Implementing a smart home energy optimization system, using IoT device data and ML algorithms. Compare the optimization results of different algorithms and hybrid LSTM-ARIMA algorithm.

• React Dashboard

Developed a React dashboard project featuring population data visualization using charting libraries, real-time cryptocurrency price display via API integration, and MetaMask wallet integration for Ethereum-based interactions.

TECHNICAL SKILLS

Languages: C, C++, HTML/CSS, Python, Javascript

Database: SQL, MongoDB, PostgreSQL

Frameworks & Libraries: React Js, Redux, Firebase, Node Js, React Native, PHP, RestAPIs, Tailwind CSS

Tools: Git, Excel, Swagger, Figma, Canva

Area of Knowledge: OS, OOPs, DBMS, DSA

ACHIEVEMENT

- IEEE CIS SBC Start-O-Thon | First Runner up
- IEEE CIS SBC Hack4Good | Finalist
- Internal Hackathon for Smart India Hackathon | Round 2
