

Abhishek Singh

Angular Developer | Expanding Full-Stack Expertise (Node.js, Express.js, MySQL)

Angular Developer with a strong foundation in building dynamic, scalable, and secure web applications. Initially specialized in developing responsive, feature-rich front-end interfaces using Angular, I have expanded my expertise in recent months to include backend development with Node.js, Express.js, and MySQL. Experienced in creating and integrating RESTful APIs, managing relational databases for efficient data storage and retrieval, and implementing authentication, authorization, and performance optimization. Passionate about writing clean, maintainable code, following best practices, and delivering high-quality solutions on time. A proactive team player who bridges the gap between front-end and back-end to build seamless, end-to-end applications.

WORK EXPERIENCE

Angular Developer Kratitech

07/2022 – Present Kanpur, U.P. , India

Achievements/Tasks

- Develop and maintain scalable web applications using Angular, Node.js, Express.js, and MySQL, ensuring high performance, secure data handling, and cross-browser compatibility.
- Integrate and optimize RESTful APIs for seamless data exchange between front-end and back-end systems.
- Build responsive, user-friendly interfaces with Angular Material, Bootstrap, and modern UI/UX principles.
- Expand into backend development, implementing functionality with Node.js/Express.js and leveraging reusable components for a clean, scalable codebase.
- Optimize application performance through efficient coding, lazy loading, and reusable components.

Web Developer Intern Kratitech

01/2022 - 06/2022 Kanpur, U.P. , India

Achievements/Tasks

- Gained hands-on experience in Angular, HTML, CSS, JavaScript, and RESTful API integration.
- Assisted in the development of live projects, focusing on responsive front-end design and UI/UX improvements.
- Learned and applied best practices in code structuring, version control (Git), and project collaboration.
- Worked closely with senior developers to debug, test, and enhance application functionality.
- Revamped multiple websites to make them mobile-friendly and improve performance.
- Acquired insights into the company's technical team workflows.

EDUCATION

Bachelor of Computer Application (BCA)

Dr. Virendra Swarup Institute of Computer Studies.

Kanpur Uttar Pradesh , India

Intermediate

New Convent Public Inter College

Bidhuna , Uttar Pradesh , India

SKILLS

HTML

CSS

JAVASCRIPT

BOOTSTRAP

ANGULAR

NODE.js

ANGULAR MATERIAL

EXPRESS JS

GIT

TAILWIND CSS

MySQL

PROJECTS

Pious Factory | Angular, Node.js, MySQL, Socket API

- Developed a milk management system for Noida city, streamlining milk distribution, sales, and inventory.
- Implemented role-based authentication for Admin, Distributor, and Vendor logins, ensuring secure access control.
- Used Socket API for real-time communication between distributors and vendors
- Designed an intuitive and responsive UI with Angular 18 to enhance user experience.
- Built a robust Node.js backend with MySQL, handling high-volume transactions efficiently.
- Ensured seamless coordination between vendors, distributors, and customers for optimized operations.

Mohta Ayurveda | Angular 17, Node.js, MySQL, Tailwind

- Successfully migrated the existing app from PHP to Angular 17 with Node.js RESTful APIs integration.
- Admin Panel: Manage products, assign discounts, and manage orders.
- Employee Dashboard: Employees log in, view orders, and update status.
- Customer Management: Manage customers and their orders etc.
- Wishlist and cart features with dynamic search.
- MySQL Database: Stores employees, roles, orders etc.
- Responsive UI: Built with Angular & Tailwind CSS.
- Website - mohtaayurved.com

Employee Management System | Angular 17, Bootstrap, REST APIs

- Responsible for the UI setup with Angular 17 and implemented lazy loading.
- Technology Stack Front-End: - HTML, CSS, JavaScript and Bootstrap
- Angular16.
- Fully responsive design for all devices and also collaborated with backend developers to integrate RESTful APIs into the application.
