Objective

Results-driven Software Engineer with 1.5+ years of experience in software development, data architecture, security implementation, and performance optimization. Skilled in coding, testing, and debugging. Eager to leverage technical expertise and problem-solving skills to contribute to innovative software solutions in a dynamic development team

Education

Madan Mohan Malaviya University of Technology

Master of Computer Applications

Aug 2020 - June 2022

Gorakhpur, Uttar Pradesh

Makhanlal Chaturvedi University, Bhopal

Bachelor of Computer Applications

Aug 2017 - July 2020

Bhopal, Madhya Pradesh

Technical Skills

Languages: C#, Ruby, C/C++, HTML/CSS, JavaScript.

Developer Tools: VS Code, Visual Studio 2022 IDE, Sublime Text, SQL Server Management Studio (SSMS).

Databases: SQL Server, MySQL, PostgreSQL.

Version Control: Git, GitHub, Bitbucket, Jira, Notion.

Frameworks & Libraries: .NET Core, ASP.NET Core, Entity Framework, MVC, Web API, Blazor, Rails

Projects

StreamLine MoneySofttech Pvt Ltd (Sep-2024 to Present)

Project: [Sky8pay.com](https://sky8pay.com) (Payment Gateway)

- Developed and maintained multiple ASP.NET Core MVC and Web API controllers for a UPI Management System, improving financial reporting, customer management, and loan operations, resulting in a 25% reduction in manual processing time.
- Contributed to data architecture design, optimizing database interactions and enhancing scalability, which led to a 20% increase in system performance and reduced latency
- Implemented security features such as dual authentication (Google Authenticator), role-based access control, and data encryption using MailKit, strengthening security and reducing security incidents by 15%.
- Utilized Dependency Injection, AutoMapper, and asynchronous programming to optimize system performance, ensure smooth data flow, and enhance code maintainability, resulting in a 30% reduction in technical debt.
- Led testing efforts using Postman and Swagger, validating API functionality and ensuring system integrity, which improved overall API reliability and reduced production errors by 10%

Crystal Screening Services Pvt Ltd (May-2023 to Sep-2024)

Executive - [Private Investigator](#) (Employee Verification), Remote Work

- Role Overview:**
As a part-time Private Investigator at BGV Company, I was responsible for conducting comprehensive employee verification checks for multiple companies. My primary tasks included verifying employment history, education credentials, and other background checks. I also generated detailed verification reports to assist clients in their recruitment and hiring processes.
- Responsibilities:**
 - Conducted **employee background verifications** for multiple clients, including checking work history, educational qualifications, and criminal records using various online portals and databases.
 - Analyzed and cross-checked data across multiple sources to ensure the accuracy and legitimacy of the information provided by potential hires.
 - Produced **detailed employee verification reports** and provided recommendations based on findings to assist HR and recruitment teams in decision-making.

- Managed multiple verification projects simultaneously, ensuring timely delivery of accurate reports within specified deadlines.
- Collaborated with other investigators and executives to maintain data accuracy and ensure compliance with company policies.
- Prepared **final reports** summarizing verification results, discrepancies, and providing actionable insights to clients.
- Maintained **confidentiality** and adhered to privacy laws during investigations to protect sensitive employee information.

Hipster India Pvt Ltd (Oct-2023 to Jan-2024)

Project: [Event Management System](#)

- **Project Overview:**
Developed a robust Event Management System for a client in the event planning industry. The system allows users to create, manage, and track events, from attendee registration to event day activities, providing a seamless user experience for event organizers.
- **Responsibilities:**
 - Designed and implemented the backend using Ruby on Rails, including models, controllers, and views to support dynamic event creation and user management.
 - Integrated PostgreSQL to manage event data, including user registrations, event schedules, and attendee information.
 - Developed user authentication and role-based authorization for different access levels (admin, organizer, attendee) using Devise and Pundit.
 - Built RESTful APIs to integrate with third-party services for payment processing and email notifications for event confirmations and reminders

Witmates Technologies (Jul-2022 to Jul-2023)

Project: [Foto Finder Hub](#) (Cancer Patient Clinic)

- **Responsibilities:**
 - Developed the **core back-end features** using **Ruby on Rails** to handle user authentication, image uploads, and data management for cancer-related medical images.
 - Integrated **ActiveStorage** for image handling and implemented **cloud storage** solutions (e.g., Amazon S3) to store large medical images securely.
 - Designed and implemented the **database schema** using **PostgreSQL**, ensuring efficient storage and retrieval of medical images and associated patient data.
 - Built and optimized **RESTful APIs** for integration with other systems and for data retrieval to allow seamless communication between doctors, caregivers, and patient.

Mindlabz Media Tech Pvt Ltd — Web Developer Intern (Oct-2021 to Jan-2022)

- Developed and optimized web applications using HTML, CSS and JavaScript.
- Gained hands-on experience in both front-end and back-end development.
- Troubleshoot bugs and improved user experience across platforms.
- Collaborated effectively with teams, meeting deadlines and coding standards.
- Participated in code reviews and contributed ideas for project improvements.
- Gained valuable exposure to web development tools, frameworks, and industry best practices.

Achievements

Excellence in Quantitative Aptitude (2022)

- Awarded by Madan Mohan Malaviya University of Technology for outstanding performance in the university's aptitude competition

Hobbies

- **Technology and Coding:** Passionate about exploring new technologies, frameworks, and tools related to software development

- **YouTube Video Creation:** Create YouTube videos where I share insights, tutorials, and tips on technology and software development, helping others while improving my communication skills.
- **Tech-related Videos:** Enjoy watching tech-related YouTube videos to expand my knowledge on emerging trends, new programming languages, frameworks, and best practices in development.
