Professional Summary

Motivated and detail-oriented MCA student with hands-on experience in full-stack web development using technologies like PHP, Python, MySQL, HTML, CSS, and JavaScript. Seeking a challenging role as a Web Developer where I can contribute to building innovative, user-centric applications while continuously enhancing my technical skills and growing with the organization.

SKILLS AND INTERESTS

Programming Languages	PHP, Python, JavaScript, C, C++
Frontend Technologies	HTML5, CSS3
Database	SQL
Version Control System	Git, GitHub
Soft Skills	Critical thinking, Data-driven decision making, Project ownership

EDUCATION

Khawaja Moinuddin Chishti Language University Master in Computer Application (9.80 CGPA)	August 2023 - June 2025
Khawaja Moinuddin Chishti Language University Bachelor of Computer Application (9.31 CGPA)	August 2020 - July 2023
Little Flower Children School Intermediate (PCM- 80.8%)	July 2018 - July 2020
SMT Ramrati Devi School High School (77.8%)	May 2018

EXPERIENCE

Software Development Engineer Intern (Remote) Bluestock Fintech • Collaborated with the Bluestock Fintech leadership team to develop and optimize fintech solutions in a dynamic, startup environment. • Gained hands-on experience in software development processes and fintech application design. • Worked in a flexible, remote setting, contributing to key projects and team goals.	Dec 2024 - Jan 2025
--	---------------------

PROJECTS

Tourism Management System Technologies: PHP, HTML, CSS, JavaScript • Developed a responsive web-based platform for tourism service booking and user account management. • Integrated secure backend functionalities with dynamic, interactive UI components to improve user engagement and performance.
AR-Based Interior Design Assistant Technologies: HTML, CSS, JavaScript, AR.js, Python, MySQL • Engineered an Augmented Reality (AR) web application for real-time furniture placement and room visualization. • Implemented core modules including 3D model handling, plane detection, room scanning, furniture catalog, shopping features, and personalized user design settings.
College Management System Technologies: HTML, CSS, Python • Built a comprehensive application to manage student data, course enrollment, and faculty information efficiently. • Utilized Docker for containerization and deployment, ensuring cross-platform compatibility and streamlined execution.

POSITIONS OF RESPONSIBILITY

Class Representative: Acted as a liaison between students and faculty, ensuring smooth communication and resolving academic concerns.
Project Leader: Led academic projects like College Management System, ensuring on-time completion and collaborative team coordination.
Teaching Assistant/Tutor: Provided academic support in programming (C/C++, Java, Python) and web development (HTML, CSS, PHP, MySQL) to over 50 peers.
Event Coordinator: Organized seminars and competitions, managing event logistics and schedules 200+ participants in academic and cultural events.
