EDUCATION

BABU BANARASI DAS ENGINEERING COLLEGE

Bachelor of Technology (Computer Science and Engineering)

Courses: Operating Systems, Data Structures, Analysis of Algorithms, Machine Learning, Networking, Databases

Lucknow, UP

August 2024

EXPERIENCE

Web Developer Associate

Lucknow, UP

Brimo Software Solution

August 2024 – Till Now

- Worked on a project for plixlife, focusing on frontend development and resolving technical issues on their website
- Collaborated with the development team to design new sections of the website, ensuring consistent and coherent styling throughout
- Utilizing technologies such as Next.js, Typescript and GraphQL to improve the website's performance and functionality

Web Developer Intern

Lucknow, UP

Tathastu Technologies (Part-time, Remote)

Aug2022 – Sept2022

- Built a 5-page website featuring 7 interactive components, conceptualized and managed 3+ web pages for data display using appropriate technologies

PROJECTS

Blog Application-(Blog-Easy) (React.js, Node.js, Express.js, MongoDB, JWT)

- Feature-rich: User authentication, Blog post creation, TypeScript support - Enhancing functionality
- CRUD operations: Seamless data management, customizable Blog creation, Quick updates – Empowering users
- Designed RESTful APIs using Express.js for CRUD operations and user authentication

Foodie-Point Website (React.js, CSS)

- Designed and developed a responsive food delivery website using React JS, CSS, and HTML
- Implemented interactive UI components, such as navigation menus and food item cards, to enhance user engagement
- Optimized website performance using code splitting, lazy loading, and image optimization techniques

Yummy Plate - Recipe App (React.js, ReactDOM, Styled Component, Spoonacular API)

- Fostered a Food Recipe website using React, enabling users to explore 16+ recipes.
- Utilized Spoonacular API to fetch and display real-time recipe data, ensuring users always have access to the recipes
- Implemented features for browsing 16+ recipes and filtering by cuisines to enhance usability
- Leveraged ReactDOM to enhance rendering efficiency, resulting in a smooth and responsive user experience

SKILLS

Languages: Java, Python, JavaScript, HTML5, CSS3

Framework & Libraries: React.js, Node.js (Express.js, RESTful APIs), Tailwind CSS

Databases: MongoDB, SQL

Tools & Technologies: Git, GitHub, VS Code

ACHIEVEMENTS

- **Led** a team of 3 member that successfully gained victory at Solving for India Hackathon, securing **Institute Level Winner** title
- Contributed to **Hacktoberfest**: Successfully merged 4 pull requests, contributing to **open-source projects**
- Solved **200+** Questions on  **Leetcode**, **Gfg** and achieved a **5 Star** on **HackerRank** in Java
- Acquired practical expertise in cloud computing via the intensive 30 Days of Google Cloud Program

CERTIFICATIONS

-  **Coursera Learn React by Scrimba** – Covered all the basic concepts like useState, useEffect hooks, JSX and React forms etc.
-  **Coursera Web Development with HTML, CSS and JS** - Covers functions, objects, arrays, variables, data types and DOM etc.
-  **Infosys Springboard Introduction to Java Programming** – Covered java fundamental concepts and challenging exercises
-  **Infosys Springboard Learning Python**- Covered all the basic concepts of python
