Projects

• E-commerce-project:

GitHub[\[Link\]](#)

- Built a responsive e-commerce website with **product listing**, **filtering**, and **cart functionality**.
- Implemented **search** and **category filter** features using **React state management** for dynamic updates.
- Integrated **dynamic pricing** to adjust product costs based on sales and promotions.
- Enhanced UI with modern styling and responsive design using **Tailwind CSS**.
- Optimized performance and usability for a smooth shopping experience across devices.

• Chat App:

Chat-app[\[Link\]](#)

- Developed a **chat app** allowing users to send and receive text messages in real-time using **React** and **Socket.io**.
- Implemented **image sharing functionality**, enabling users to send and receive images during chats.
- Integrated **JWT authentication** for secure user sign-up, sign-in, and logout features.
- Enabled **profile management**, allowing users to edit and update profile details, including username and profile picture.

INTERPERSONAL & COMMUNICATION SKILLS

- Ability to learn new technology and tools.
- Team works and leadership.
- Good in strategy thinking & planning.
