EDUCATION

D Y Patil University Technical Campus

Master of Computer Application ; SGPA: 7.45

Ambi, Pune, Maharashtra, India

November 2022 - July 2024

Bharati Vidyapeeth Deemed University

Bachelor of Computer Application ; CGPA: 8.29

Kothrud, Pune, Maharashtra, India

July 2019 -June 2022

SKILLS SUMMARY

- **Languages:** HTML, CSS, JavaScript, Java, SQL, NoSQL
- **Libraries:** ReactJs, Redux, Bootstrap, TailwindCSS,
- **Tools:** Github, Firebase, Node.Js, NPM, Vite,
- **Soft Skills:** Excellent communication, Problem Solving, Team Management, Decision Making.

CERTIFICATES

Cybfun.1.0: Cybersecurity Basics

IBM. 2023

- <https://courses.edx.org/certificates/c97db1954caf424ab3b77c12c02d7de1>
- Cybfun.1.0 is a beginner-friendly cybersecurity course covering essential topics like threat detection, cryptography, network security, and best practices, providing a solid foundation in cybersecurity principles and practices.

Web Development for beginners

Simpli Learn. 25 Feb 2024

- Web development for beginners involves learning HTML, CSS, and JavaScript. Gain technical skills in coding, responsive design, and frameworks. like React. Practice problem-solving and collaboration for well-rounded expertise.

Python Basics for Data Science

IBM. 2024

- <https://courses.edx.org/certificates/594dc5833c2e42698201efbfc93472d5>.
- Python Basics for Data Science, a comprehensive course covering fundamental Python concepts essential for data science, including variables, loops, functions.

PROJECTS

Airlines Management System

GitHub • October 2023 - November 2023

<https://github.com/amank023/airline.git>

- Created a project using React.js, NoSQL, Firebase and Integrated API for fetching essential flight booking data.
- Implemented a payment gateway for security. Transactions.
- Deployed the project on diverse web development platforms. Took charge of designing the User Interface.
- Developed the backend and handled database operations and ensured seamless functionality across the application.
- Utilized NoSQL for efficient data storage and retrieval and Integrated Firebase for real-time updates and scalability.
- Achieved a comprehensive solution for a dynamic web application.

Contact Page App

GitHub. August 2024 - August 2024

https://github.com/amank023/Contact_Page.git

- Developed a Contact App using React and Vite for fast, efficient performance.
- Integrated Firebase for real-time database storage, allowing users to add, edit, delete, and search contacts.
- Utilised Formik and Yup for form handling and validation, ensuring accurate user input.
- Implemented react-toastify for user-friendly notifications on contact actions.
- Enhanced UI with TailwindCSS for responsive design and React Icons for a modern look.
- Configured ESLint and Prettier for code quality and consistency.
- Built with future improvements in mind, including user authentication and advanced filtering.

Online Voting System

Bharati Vidyapeeth University • Feb 2022 - April 2022

- Developed interactive and user-friendly front-end features using HTML, CSS and Javascript .
- HTML for structuring web content. CSS is utilised for styling and presenting a visually appealing interface. and JavaScript employed for client-side interactivity, ensuring a seamless user experience.
- Stores and retrieves information related to candidates, voters, and election results.
- Implements a secure and user-friendly online voting platform and Provides information on candidates or survey questions dynamically using JavaScript.
- Improves efficiency by reducing manual processes and Enables voters to participate from any location, saving time and costs.
- Utilises SQL best practices for data integrity and confidentiality.

Gym Management System

Bharati Vidyapeeth University • September 2021 - November 2021

- Developed using C# language, Utilises Windows Forms for a user-friendly interface, Integrates SQL for robust data management.
- Member registration and attendance tracking, Allows the addition and deletion of members and staff and Stores gym-related data using SQL.
- Efficiently manages information on members, staff, and equipment.
