EXPERIENCE

CODE MONK | Front-end Developer

Nov 2023 - April 2024

Creating multiplayer games based on react, redux and firebase

Developed user-oriented visuals and features using front-end languages to increase site traffic.

SKILLS

Programming Languages: JAVASCRIPT, HTML, CSS

Libraries/Frameworks: REACT JS, BOOTSTRAP, TAILWIND, FIREBASE

Tools / Platforms: GITHUB, GIT

PROJECTS / OPEN-SOURCE

WEB-CHAT

javascript, Reactjs, firebase, Sass

Designed and developed a responsive and visually appealing web chat application for real-time conversations using React.js, Sass, Firebase, and React Router. Implemented a clean and intuitive user interface, ensuring a seamless user experience. Key features include secure login/logout functionality.

BANKIST APP | [Link](#)

JAVA SCRIPT HTML , CSS

Designed and developed a responsive and visually appealing web application for money transfer using HTML, CSS, and JavaScript. Implemented a clean and intuitive user interface, ensuring a seamless user experience. Key features include secure login/logout functionality and a loan management system.

UPGRADE WEB APP

Reactjs, Firebase, Bootstrap

"With this project, I aimed to address the challenges faced by students by developing an intuitive online MCQ test platform that facilitates self-improvement and skill enhancement. Leveraging modern technologies such as React.js, Sass, Firebase, and React Router, I crafted a visually stunning and responsive application.

This platform enables students to take online multiple-choice question tests conveniently. By offering a user-friendly interface and seamless navigation, I ensured an enjoyable and efficient experience for users. Key features include secure authentication for user login and logout, real-time test updates, and performance tracking.

Through this project, my goal was to empower students to upgrade their skills and knowledge in a beautiful and engaging learning environment."
