Profile

Aspiring to build a successful career in python development, with a focus on Django as my primary framework. I am passionate about creating robust, scalable web applications by leveraging my skills.

Skills

Professional Experience

Software Engineer Intern, Ispark Dataconnect Pvt. Ltd.

07/2024 – 08/2024

- Developed a user registration form using Django to collect user details such as name, email, password, and other relevant information.
- Configured Django settings to connect with the SQL database, enabling seamless backend and frontend communication.
- Performed testing and debugging to ensure a bug-free and responsive user experience.

Projects

RESTAURANT WEBSITE

06/2023 – 09/2023

- Successfully created a visually appealing and fully responsive restaurant website using only HTML and CSS.
- The project effectively showcased the restaurant's menu, specials, and contact details, providing a seamless user experience across various devices and screen sizes.
- The design demonstrated strong front-end development skills and an understanding of modern web design principles.
- Content, test, optimize: Add content, test on devices, optimize for performance.

SPOTIFY CLONE

03/2023 – 06/2023

- Developed a basic Spotify clone using Flask, HTML/CSS/JavaScript, and SQLite.
- Implemented user authentication, playlist management, and music playback features.
- Integrated a customizable music player with controls for play, pause, skip, and volume adjustment.
- JavaScript was used to implement interactive elements such as a custom music player, playlist management, and dynamic content loading.
