

Sandeep Kumar

Entry Level Data Analyst

PROFILE

analytical Data Analyst with 1 year of hands-on experience transforming raw data into actionable insights using tools like Power BI, SQL Server, Excel, and Python. Skilled in data cleaning, analysis, and visualization, with a strong foundation in querying relational databases, automating reports, and building interactive dashboards to support business decision-making.

WORK EXPERIENCE

1. **Power Bi Projects:** Developed a dashboard for Indian Oil by sourcing data from online resources, cleaning the data in Excel, and creating an interactive dashboard in Power BI with detailed data analysis.
2. **Excel Project:** Designed and developed an interactive Excel dashboard to track and analyse e-commerce sales performance, including KPIs such as revenue, conversion rates, top-selling products, and customer trends using pivot tables, charts, and advanced formulas
3. **SQL Server Project:** Developed a SQL Server-based solution to manage and analyse e-commerce sales data, including database design, ETL processes, and complex queries for reporting on customer behaviour, product performance, and revenue trends
4. **Teaching experience:** Three years of teaching experience at the Goal Achievement Research Centre, mentoring students in goal achievement and personal development. Responsibilities included designing and delivering lessons, creating learning materials, and conducting workshops to boost critical thinking and problem-solving skills
5. **Udemy Certificate** Completed Udemy Data Analyst course covering essential skills and tools, including data analysis fundamentals, data visualization with Excel and Power BI, and data manipulation using MySQL and Python libraries (Pandas, NumPy)
