Career Objective

Seeking a challenging position as a .NET and Angular Developer where I can utilize my skills and knowledge to contribute to innovative projects, while also enhancing my expertise in modern web technologies and frameworks.

Education

Bachelor of Technology in Computer Science and Engineering

GLA University, Mathura

Graduated: May 2023

Intermediate

Bal Vikas Sansthan IC College

Completed: May 2018

High School

St Francis Academy

Completed: May 2014

Projects

Book Notes | Technologies: HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, PostgreSQL

- Designed and developed a web app to track books and important notes.
- Integrated an API for book cover images.
- Utilized PostgreSQL for data storage.

Blog Application

Technologies: HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, PostgreSQL

- Developed a dynamic blog platform with RESTful API for CRUD operations.
- Employed PostgreSQL for backend data management.

Travel Tracker | Technologies: HTML, CSS, JavaScript, Node.js, Express.js

- Created a web app to visualize travel history on a map.
- Implemented multi-user functionality to view others' travel data.

Music Player | Technologies: HTML, CSS, JavaScript, React.js

- Built a music app with personalized recommendations and download features.
- Supported multiple simultaneous users.

Employee Management System

Technologies: .NET Core, Angular, SQL Server

- Developed a web application for managing employee records, departments, and roles.
- Implemented RESTful API services using .NET Core and created a responsive front-end using Angular.

E-Commerce Platform | Technologies: .NET Core, Angular, SQL Server

- Built a comprehensive e-commerce application with user authentication, product management, and order processing.
- Utilized .NET Core for backend services and Angular for a dynamic and responsive frontend.

Real-Time Chat Application | Technologies: .NET Core, Angular, SignalR

- Developed a real-time chat application with user-to-user messaging.
- Leveraged SignalR for real-time communication and Angular for a responsive user interface.

Roles

Frontend Developer

- Improved web development skills using Angular and other frontend technologies.
- Built responsive webpages with Bootstrap and minimized code complexity.

.NET Developer

- Developed and maintained web applications using .NET Core and C#.
- Integrated Angular for dynamic frontend development and SQL Server for backend database management.

AWS Developer

- Worked with AWS EC2 and IAM platforms.
- Utilized various AWS tools and services for efficient and scalable solutions.

Internship Experience

DCS, Pune Intern

August 2019 – May 2022

- Focused on automation using IIOT.
- Worked with Raspberry Pi and cloud services for connecting real-world devices to virtual environments.

Skills

- Frontend Development: Angular, HTML, CSS, Bootstrap
- Backend Development: .NET Core, C#, RESTful API
- Database Management: SQL Server, PostgreSQL, MongoDB
- JavaScript Frameworks: React.js, Node.js
- Cloud Services: AWS Essentials
- Version Control: Git & GitHub
- Other: IIoT, TypeScript

Certifications

- Frontend Development – Simplilearn
- Industrial Internet of Things
- .NET Core Fundamentals
- Angular Developer

Declaration

I hereby declare that the information provided in this resume is accurate and true to the best of my knowledge and belief.
