

Professional Summary

Aspiring Data Analyst with a passion for translating data into actionable insights. I am eager to contribute analytical expertise to a dynamic team and thrive in a challenging data-centric role. Proven ability to tackle complex analytical challenges and provide data-driven solutions. Proficient in SQL and Python for data extraction, transformation, and analysis.

Education

BACHELOR OF COMPUTER APPLICATION (BCA)

Pursuing BCA (Bachelor of Computer Application) from INTEGRAL UNIVERSITY.

INTERMEDIATE

Intermediate from UP Board in 2020.

HIGH SCHOOL

High School from UP Board in 2018.

Skills

Python

Libraries: Pandas, NumPy.

Power BI

Tools: DAX, Power Query

SQL

Software: SQL Server, MySQL
(Group By, Sub-Queries, JOINS,
Case-When, Union&Union All)

Excel

Tools: Pivot Table, Pivot Chart,
VLOOKUP, HLOOKUP.

Projects

OLYMPIC HISTORY-ANALYSIS WITH SQL-

- **Objective:** Conducted a Data Analysis project leveraging SQL to explore and analyze two primary datasets, "athlete" and "athlete_events" encompassing extensive information about Olympic athletes and their participation across events.
- **SQL Proficiency:** Developed advanced SQL queries to extract, manipulate and analyze data, showcasing a high level of proficiency in database management and querying.
- **Performance Analysis:** Identified top- performing athletes based on medal counts, offering insights into outstanding achievements and trends in Olympic performance over the years.
- **National Representation:** Conducted in-depth analysis of country-level data to determine the countries with the highest representation and their respective performances in the Olympics.

SALES DASHBOARD USING POWER BI–

- **Objective:** Developed an interactive sales dashboard using Power BI to analyze and visualize key sales metrics.
- **Approach:** I started by cleaning and transforming data to derive proper insights and I have use different types of visualizations charts like Bar chart, Line chart, Donut chart and Pie chart to analyze their online sales across India.
- **Insights Drawn:** we have top 5 customers who have made maximum purchases, Top 5 states that have generated maximum profit and we also have earned a good profit in the month of **November** and **January**.

Certifications

- Certified by **OASIS INFOBYTE** for successfully completing the **One-Month internship** in **Data Science**.
- Certified by **Hacker Rank** for successfully clearing the assessment test in **SQL (Structured Query Language)**.
- Certified for successfully completing the course on **Python for Data Science, AI & Development** on **Coursera**.
- Certified for successfully completing the course on **Database and SQL for Data Science with Python** on **Coursera**.

Strengths

- Keen learner
- Positive thinker
- Can work for long hours
- Ability to work in a Dynamic environment

Declaration

I hereby declare that the above-mentioned is true to my knowledge and I bear the responsibility for any incorrectness, if found in the above data.
