

# ANKIT THAKUR

Aspiring Software Developer | Java, HTML, JavaScript, MySQL

Noida, Uttar Pradesh • [rajankitt01@gmail.com](mailto:rajankitt01@gmail.com) • (+91) 7667930518 [GitHub](#) [LinkedIn](#)

## PROFILE SUMMARY

- Motivated and Versatile Professional with a growth mindset, eager to contribute technical skills and innovation in collaborative, fast-paced environments. Committed to continuous learning and delivering value to achieve organizational goals.

## EDUCATION

Ambalika institute of management And Technology, Lucknow

2020-2024

Computer science & Engineering

## PROFESSIONAL EXPERIENCE

### Softpro India Computer Technologies (P) Ltd.

#### Summer Internship

- Developed and tested responsive web applications using Java, HTML5, CSS3, JavaScript, and Bootstrap, focusing on intuitive and mobile-friendly UI/UX design.
- Integrated MySQL databases with front-end systems using efficient SQL queries, joins, and stored procedures for robust backend connectivity.
- Applied Object-Oriented Programming (OOP) principles to create modular, scalable, and maintainable codebases, ensuring long-term code quality.

## PROJECTS

### Farmer Merchant Integration (FMI)

[Link](#)

**Technologies:** Java, JSP, HTML, CSS, Bootstrap, JavaScript, MySQL

- Engineered a **Cold Storage Management System** using **Java**, **JSP**, and **RESTful APIs** to handle **farmer registration**, **storage allocation**, and **merchant transactions**.
- Designed a **responsive UI** with **HTML5**, **CSS3**, **JavaScript**, and **Bootstrap** for seamless user interaction.
- Integrated **MySQL database** for efficient **inventory**, **user**, and **transaction management**.
- Implemented **business logic** for transaction validation and developed real-time **notification features** for data accuracy and user updates.

### E-Learning Evaluation System (ELES)

[Link](#)

**Technologies:** HTML, CSS, JavaScript, PHP, XAMPP (MySQL)

- Developed a **web-based E-Learning Evaluation System** with a **responsive front-end** using **HTML5**, **CSS3**, and **JavaScript** for interactive user experience.
- Utilized **PHP** for **server-side scripting** to manage **exam creation**, **user authentication**, **randomized questions**, and **auto-grading**.
- Integrated **MySQL database** via **XAMPP** for structured data storage, retrieval, and **secure CRUD operations**.
- Built an **admin dashboard** for analytics, feedback reports, and applied **input sanitization** to ensure **data integrity and security**.

---

## TECHNICAL SKILLS

---

**Programming Languages:** Java, JavaScript

**Web Technologies:** HTML5, CSS3, Bootstrap

**Databases:** MySQL

**Development Tools & IDEs:** Visual Studio Code, NetBeans, WAMP Sever

## SOFT SKILLS

- Strong Interpersonal Communication, Team Collaboration, Efficient Task Prioritization, Deadline-Driven Workflow.
