SUMMARY

Computer Science graduate (2025) with a strong foundation in full-stack web development and hands-on experience in AI-based projects. Proficient in React, Node.js, MongoDB, and OpenAI APIs. Passionate about building scalable and user-friendly applications. Seeking opportunities in Full Stack Development, Frontend Engineering, or AI/ML Software Development.

EDUCATION

Rajkiya Engineering College Mainpuri

B.Tech - Computer Science and Engineering - CGPA - 7.78

2021 – 2025

Mainpuri, Uttar Pradesh

COURSEWORK / SKILLS

- DSA
- Operating Systems
- OOPS Concepts
- Computer Networks
- Cloud Computing
- Software Engineering
- DBMS

EXPERIENCE

Intern at The Skill Guru Foundation 

August 2024 - September 2024

Role - UI/UX Designing Intern

- Learned and Implemented **practical experience in UI/UX principles, user-centered design, and responsive design techniques.**
- Worked on real-time projects focusing on wireframing, prototyping, and improving user interface layouts.
- Used tools such as Figma to create high-fidelity mockups and interactive prototypes.
- Conducted user research, gathered feedback, and iterated designs to enhance user experience.
- Collaborated with developers to ensure design feasibility and implementation alignment.

PROJECTS

AI Powered Code completion and Error Detection  | Python, Flask, React, Transformers, Codex

- Developed an AI-powered coding assistant for real-time code suggestions and error detection.
- Integrated OpenAI Codex with a Flask API to generate smart code completions.
- Built a React-based editor using Monaco Editor for seamless coding experience.
- Implemented an error detection system to highlight syntax and logical errors.

AI-Powered Resume Builder  | React, Node.js, Express, MongoDB, OpenAI GPT, Tailwind CSS

- Built a full-stack web app to generate professional resumes using OpenAI GPT based on user input.
- Designed a modular Express backend with authentication, resume APIs, and MongoDB integration.
- Created a responsive React frontend with real-time editing and reusable components like Dashboard.js.
- Enabled secure login, resume preview, and PDF export for a smooth user experience.

Simon Says Game  | HTML, CSS, Javascript

- Developed an interactive memory game where users repeat color sequences that increase in difficulty.
- Implemented core game logic using JavaScript to generate random patterns and validate user input.
- Designed a visually appealing UI with responsive layout and engaging animations using CSS.
- Implemented score tracking to challenge users and enhance gameplay engagement.

TECHNICAL SKILLS

Languages: Java, Python, C, JavaScript, SQL

Web Technologies: HTML5, CSS3, React, MongoDB, Express, Javascript, NodeJS, Bootstrap

Frameworks/Libraries: React, Node.js, Express.js, MongoDB

Developer Tools: VS Code, Canva, Git

CERTIFICATIONS

- Mastering Data Structure and Algorithms with Java - **Apna College**
- Full Stack Web Development - **Apna College**.
- Introduction to Internet of Things - **IITK (NPTEL)**.
- Introduction to Artificial Intelligence - **SimpliLearn**.
