Experienced React.js frontend developer adept at crafting dynamic web applications. I am proficient in creating reusable components, ensuring cross-browser compatibility, state management, debugging, responsive web design, and integrating APIs for enhanced functionality. Skilled in translating UI/UX designs into high-quality code. Proactive troubleshooter with strong problem-solving abilities and a commitment to staying updated with industry trends.

WORK EXPERIENCE

AV Sigma Solution

Software Engineer

Aug 2023 - July 2024

📍 Bengaluru, India

- Worked as a React.js Frontend Developer and developing a software solution for the WhatsApp marketing tool and chatbot that lets you use the WhatsApp Cloud APIs to reach out to your customers on WhatsApp, and contributing to bulk marketing broadcast messages and transactional notification messages that help with the marketing of small-scale start-ups to large-scale industries.
- Developed scalable and dynamic web applications using React, Advanced JavaScript, Material-UI5, and other libraries.
- Successfully integrated APIs for real-time data fetching and display.
- Collaborated with teams using Git and GitHub for efficient code management.
- Vendor Register and Login with proper Validation.
- Using Crud operation (get/post/put/delete).

Cybotrix Technologies

Intern: Software Developer

Jan 2023 - June 2023

📍 Bengaluru, India

- Worked as a React developer at a client location, developing software solutions. Contributed to the continuous improvement of the development process.
- Developed scalable and dynamic web applications using Reactjs, JavaScript(ES6+), HTML5, CSS, Bootstrap.
- Worked collaboratively with clients to understand their requirement, deliver high-quality results and User Interface Designing.
- Troubleshoot and debug issues reported by users or identified during the development and testing phases.

2017 - 2021

Lucknow, Uttar Pradesh

Dr.A.P.J. Abdul Kalam Technical University

Bachelor of Technology

2022 - 2023

Bengaluru, India

Infocampus Software Training Institute

Fullstack Web Developer

SKILLS & TOOLS

React.js	JavaScript	Bootstrap
HTML5	CSS3	Material UI
REST-API	JSON	Redux
Github	SQL	Clerk UI
Tailwind css	Shadcn Ui	Stream

PROJECTS

Zoom Video Conferencing App [↗](#)

- Zoom is a complete video conferencing solution for the user to create meetings in real-time with multiple users.
- It also provides screen sharing and screen recording of the meetings and is responsive to all devices.
- It is a full-stack application with Node.js, Next.js, Tailwind CSS, Shadcn Ui, TypeScript, Stream, and Clerk UI.

Projet Aviation Service [↗](#)

- Projet Aviation is a pioneering solution for the largest private flight booking service in Dubai.
- We also provide the best hotel assistance and visa arrangement services.
- I created the UI for the customer app using HTML, CSS, Bootstrap, JavaScript, and jQuery.

YouTube Clone [↗](#)

- This is a completely responsive YouTube clone React application consisting of stunning video sections, custom categories, channel pages, and most importantly, you can play straight from this app.
- Developed a mobile responsive landing page website using Material UI5 and built tools like Babel and Webpack.

Responsive Ecommerce Website [↗](#)

- This is a completely responsive e-commerce platform for Tier 2+ cities.
- I developed the UI using React hooks, HTML/CSS, JavaScript, and framer motion.
- I used the SwiperJS library for the slider to make this site more functional and practical.
