SUMMARY

Dynamic **ISTQB® Certified Junior QA Engineer** with **1 year+ of experience in the testing field**, specializing in manual and functional testing across web, desktop, Android applications, and ERP systems. Skilled in test case design, bug reporting, and requirements analysis, with hands-on experience testing interactive panels, whiteboard apps, streaming solutions, and ERP applications such as Building Material and Supply Management (BMSM) and biCanvas Infrastructure and Management Application. Passionate about quality, a fast learner of new technologies, and committed to delivering high-performance, reliable products.

SKILLS

MANUAL TESTING

- Test Scenario Development
- Usability, Integration Testing, etc.
- Comprehensive Test Execution
- Defect Monitoring and Reporting
- Software Requirement Review

BUSINESS ANALYSIS

- Client Interaction and Requirement Gathering
- Data Analysis and Interpretation
- Formulating Recommendations
- Business Plan Development
- Problem Resolution and Guidance

AUTOMATION TESTING

- Basic Proficiency in Appium (Android/iOS)
- Exposure to Automation Testing Strategies

PROJECT MANAGEMENT

- Organizing and Executing Business Projects
- Initial Client Assessments
- Collaboration and Team Facilitation

COMMUNICATION AND REPORTING

- Detailed Reporting
- Minutes of Meeting (MOM) Documentation
- Client Communication and Presentation

LEADERSHIP SKILLS

- Leading in a Dual Role (Testing and Business Analysis)
- Contributing Effectively to Project Success

CONTINUOUS LEARNING

- Eagerness to Stay Current with Tech Trends
- Dynamic Skill Set Enhancement

PROFESSIONAL EXPERIENCE

Junior QA Engineer

Senses Electronics Pvt Ltd, Pune | July 2024 - Present

- Conducting end-to-end **functional, integration, system, and performance testing** across web, desktop, and Android applications.
- Testing interactive panel firmware, digital whiteboard applications, and live audio/video/desktop streaming solutions.
- Designing and **executing detailed test cases and test scenarios** based on software requirements and use cases.
- Reviewing requirements, identifying gaps, and collaborating with development teams for clarification and improvement.
- Logging, tracking, and verifying bugs with clear documentation throughout the defect lifecycle.
- Performing **integration testing** to validate seamless communication between multiple software modules.
- Executing rigorous **functional testing** to ensure system behavior meets business needs and specifications.
- Assisting in **staging, UAT, and production testing phases** to ensure overall product quality and stability.
- Staying updated with modern QA practices, tools, and technologies to continuously enhance testing efficiency.
- Contributing to QA process improvements by suggesting enhancements based on testing observations.

PROJECTS:

- **SenseBoard (Android/Windows):**
Tested whiteboard apps on Android/Windows panels.
- **ManageSense:**
Validated device management system functionality.
- **SenseTalk:**
Tested live audio/video/desktop streaming.
- **CaptureSense:**
Verified screen recording functionality.
- **NFC Attendance:**
Validated NFC attendance tracking on Android.
- **Interactive Panel Firmware Testing:**
Tested firmware for interactive panel integration.
