

EDUCATION

- **Bachelor of Technology in Information Technology** 2021-2025
DIT University, Dehradun CGPA: 9.01
- **Intermediate (CBSE)** 2020-2021
Manipal Public School, Lucknow Percentage: 90%
- **High School (CBSE)** 2018-2019
Manipal Public School, Lucknow Percentage: 87.5%

SKILLS SUMMARY

Information Technology graduate (CGPA: 9.01) with practical experience in full-stack web development, CRM implementation (Salesforce), cloud technologies (AWS), and DevOps practices. Demonstrated proficiency in Java, Python, JavaScript, SQL, and cloud services (EC2, S3, Lambda). Proven ability to develop and deploy efficient and scalable solutions within team environments. Experience using automation tools such as Jenkins and GitHub Actions.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, SQL, HTML, CSS, MongoDB (Basic)
Cloud & DevOps: AWS (EC2, S3, Lambda, RDS, VPC, IAM), Jenkins, Ansible (Basic), GitHub Actions, Linux (OS)
Frameworks: React, Express, Bootstrap
Tools: Git, GitHub, VS Code, PyCharm, Salesforce, Brevo
Soft Skills: Strong Communication, Team Collaboration, Flexibility, Multitasking

EXPERIENCE

•Intern

- May 15, 2024 – July 15, 2024* Cloud Zuko | Salesforce Consulting Partner
- Implemented Salesforce Service solutions, resulting in 26% increase in customer engagement.
 - Planned and developed recruitment apps with workflow automation, improving recruitment process efficiency by 30%.
 - Trained in fundamental Salesforce Marketing Cloud concepts and main platform operations.

•AI Trainee

- June 1, 2023 – July 31, 2023* Infosys SpringBoard
- Completed Artificial Intelligence Primer Certification with 97% score.
 - Improved foundational knowledge in Data Science, Machine Learning, Neural Networks.

PROJECTS

•AutoBazaar Application

GITHUB - Code | LIVE - AutoBazaar

HTML, CSS, JavaScript, Salesforce Service and Brevo

- Designed and enhanced a CRM website resulting in 20% increase in sales.
- Added web-to-lead and web-to-case forms to streamline data collection and improved efficiency with 40%.
- Customized Salesforce App for better data management and accessibility.

•Daily Blog Web Application

GITHUB - Code

HTML, CSS, JavaScript, Express, MongoDB, EJS

- Engineered a blog platform with 100+ blog data using MongoDB for robust data storage.
- Created intuitive UI with EJS templating and Express for server-side logic, improving performance by 30%.

•BloodLife Website

GITHUB - Code

ReactJS, JavaScript, HTML, CSS, SQL

- Built blood donation platform with 3 stage CI/CD pipeline using Jenkins for production deployment.
- Created UI components enabling data storage for 150+ donors and compatible search via location/blood group.
- Migrated legacy database systems to Supabase with PostgreSQL, resulting in a more efficient data storage solution and improving data retrieval speeds by 25

CERTIFICATIONS

- **Ultimate AWS Cloud Practitioner CLF-C02**Udemy
- **The Complete 2024 Web Development Bootcamp**Udemy
- **Python for Data Science, AI & Development (IBM) - 92% score**Coursera
- **AWS Cloud Technical Essentials**Coursera (AWS)

EXTRACURRICULAR ACTIVITIES

•Google Developers Student Club (DIT)

- Contributed to planning and execution of 10+ technical and professional development events, impacting 300+ students.

•Youthopia – Annual Cultural Fest

- Led a team of 20 members to organize and manage events across 15+ cultural and technical activities.
