## SKILLS

I am skilled in Java, C,C# and web technologies like HTML, CSS, JavaScript, and React.js. With strong problem-solving abilities and expertise in data structures, algorithms, DBMS, and MySQL, and also a beginner level experience in ASP.net

## EXPERIENCE

### Software Developer (Fiables Solutions Private Limited) From 1 Aug,2024

Currently working as a Software developer, contributing to a project focused on ReactJS, ASP.net. My role involves building dynamic user interfaces and enhancing frontend functionalities. This experience allows me to apply React.js and ASP.net best practices and collaborate in a professional development environment

### Core Java Training ([Certificate Link](#))

Internshala

Online Mode  
27Mar,23 - 21 May,23

Successfully completed a Core Java Development Internship at InternShala, starting from basic to advanced level of java programming including Object Oriented Programming(OOPS).

## PROJECTS

### docEdgg

docEdgg is a comprehensive Hospital Management System (HMS) with a modern, beautifully designed UI built using React.js. The platform is designed to streamline hospital operations, enhance patient management, and simplify administrative tasks.

### Guess the Number Game

Developed a Java "Guess the Number" game where players guess a randomly generated number.

### Spotify Clone

Developed a Spotify clone with HTML, CSS, and JavaScript.
