 - **Web Development:** React, Node.js, Next.js
 - **Database & Storage:** Firebase, SQLite
 - **State Management:** Provider, BLoC, GetX
 - **APIs & Networking:** REST, GraphQL, JSON, HTTP, WordPress API, Magento API
 - **Version Control:** Git
 - **Tools & IDEs:** Android Studio, VS Code, Xcode, Firebase Console
 - **Others:** Jira, Unit Testing, Widget Testing, Firebase Cloud Messaging (FCM), Google Analytics
-

PROFESSIONAL EXPERIENCE

Senior Flutter Developer

Shukla Information Solution Pvt Ltd

Feb 2024 – Present

- Lead the development and maintenance of mobile apps for **Healthcare**, **Communication**, and **Service-based** projects using **Flutter** and **Dart**.
- Also worked on **web applications** using **React** to create smooth experiences across platforms.
- Designed and built complex UI components that follow **Material Design** for great user experiences on both **iOS** and **Android**.

- Integrated services like **Firestore Authentication**, **Cloud Firestore**, **Push Notifications (FCM)**, and **Google Maps API**.
- Worked with real-time features like **chat** and **socket communication** for instant updates.
- Managed and maintained clean, organized code to ensure the apps run smoothly.
- Worked closely with backend teams to connect apps with **RESTful APIs**.
- Improved app performance by reducing load times, memory usage, and battery consumption.
- Wrote **unit tests** and **widget tests** to make sure the apps are bug-free.

Junior & Senior Flutter Developer

Softone Tech Solution Pvt Ltd

May 2020 – Apr 2024

- **Lead the development and maintenance** of cross-platform mobile applications for **eCommerce**, **Service-based**, and **Travel** apps, focusing on both **Android** and **iOS** platforms using **Flutter** and **Dart**.
- Managed **Google Play Store Console** and **Apple App Store Connect** accounts, handling app submissions, updates, and troubleshooting issues.
- Integrated **Firestore Cloud Messaging (FCM)** for push notifications and implemented real-time chat functionality using **Firestore Realtime Database**.
- Conducted code reviews and mentored junior developers, ensuring adherence to best practices and high-quality code.
- Integrated third-party services, including **Firestore Authentication**, **Cloud Firestore**, **Push Notifications (FCM)**, and **Google Maps API**.
- Collaborated closely with backend teams to ensure smooth integration with **RESTful APIs** and **GraphQL** services.
- Optimized app performance by profiling, reducing load times, memory usage, and battery consumption.
- Wrote **unit tests** and **widget tests** to ensure high-quality, bug-free releases.

EDUCATION

Master of Computer Applications (MCA)

University of RTM, Nagpur, India

Graduation: May 2020

Bachelor of Science (BSc) in Computer Science

University of RTM, Nagpur, India

Graduation: May 2018

PROJECTS

1. E-Commerce App (Flutter + Firebase)

Herbivo

<https://play.google.com/store/apps/details?id=com.herbivo.herbivoapp>

- Developed a fully functional **e-commerce** app with features like **user authentication**, **product browsing**, **cart management**, and **secure checkout**.
- Integrated multiple payment gateways such as **Razorpay**, **PayU**, **Paytm**, and **PhonePe** for smooth payment processing.
- Implemented **Firebase Analytics** for tracking user behavior and improving app experience.

2. Lifestyle or Entertainment App (Flutter + Firebase)

GoluKripa

<https://play.google.com/store/search?q=Golukripa&c=apps>

- Built a social media platform with features like **user profiles**, **messaging**, and **real-time notifications**.
- Used **Firebase Authentication** for secure login, **Cloud Firestore** for efficient database management, and **Firebase Cloud Messaging (FCM)** for push notifications.
- **Chat with Astrologers**: Users can ask questions and receive personalized advice from professional astrologers or numerologists.
- **Daily Predictions & Horoscopes**: Provides daily horoscope updates and personalized predictions based on users' zodiac signs.
- **Rewards System**: Earn rewards by engaging with astrologers, which can be redeemed for future consultations or premium services.
- **Astrology Calculator**: Allows users to calculate their birth chart and numerology insights.

3. Service-Based App (Flutter)

Wattcoin Service

<https://play.google.com/store/apps/details?id=com.wattcoin.wattcoin>

Wattcoin Partner

<https://play.google.com/store/apps/details?id=com.wattcoin.partner>

Wattcoin Service Pro

<https://play.google.com/store/apps/details?id=com.wattcoin.servicepro>

The platform that connects customers with trusted professional service providers for **installation**, **repair**, and **maintenance** tasks. We ensure that you receive **top-quality service**

without the hassle of browsing through profiles or comparing prices. With **Wattcoin**, you can rely on experts in their fields for all your service needs.

- **User & Service Provider Profiles:** Users can browse and book service providers based on their needs, while service providers can manage their schedules and services.
- **Real-Time Booking & Scheduling:** Allows users to schedule services at their convenience and track real-time service status.
- **Payment Integration:** Supports secure payments through integrated payment gateways like **Razorpay** for smooth transactions.
- **Rating & Reviews:** Users can rate service providers based on their experience, helping future customers choose the right service.

Moo & Moo Partner

<https://play.google.com/store/apps/details?id=com.moorides.passenger>

<https://play.google.com/store/apps/details?id=com.moorides.partner>

An app for booking rides with features similar to **Uber**, allowing users to book rides and track drivers in real-time.

- **Ride Booking & Real-Time Tracking:** Allows users to book rides, view nearby drivers, and track their ride in real time.
- **Payment Gateway Integration:** Supports secure payments through services like **Razorpay**, **Paytm**, or **PhonePe**.
- **Driver & User Ratings:** Both drivers and passengers can rate each other, ensuring quality and safety.
- **Push Notifications:** Sends notifications about ride status, driver arrival, and payment updates.

ADDITIONAL INFORMATION

- **Languages:** English
- **Interests:** Mobile app development
- **Availability:** Available in 1 month for new projects and opportunities. Feel free to contact me for future collaborations.
