

AKASH MISHRA

Phone | +91 6388079667 | Email | akashmishra273164@gmail.com

Skills

HTML | CSS (Basic - Intermediate) | JavaScript (Intermediate) | Tailwind CSS | React.js | Node.js | MongoDB | SQL (Basics) | Express.js | React Native Expo (Intermediate) | Python | Git/Github (Basics) | Numpy (Intermediate) | Pandas (Intermediate) | Matplotlib (Intermediate)

Education

Government Polytechnic Aadampur, Tarabganj, Gonda, Uttar Pradesh, India Computer Science & Engineering 84% (2nd Year)	2022 - 25
Chauthi Chaudhary Intermediate Collage, Perari, Nautanwa, Maharajganj, U.P Uttar Pradesh Board, Percentage : 87%	2021 - 22

Projects

X – Infinity (AI assistant like ChatGPT) : App + Server

A Created an AI assistant application like **ChatGPT** with the help of **React Native Expo** and **Node.js**. Which can generate text based responses , images and also it can analyze images. It gave me an idea about how can I build useful LLM based applications.

CodeLabs (Backend – node.js and express.js)

A Codelab's authentication system to understand auth in depth with the help of **JWT (json webtoken)** and to explore how can I implement OTP (via phone or email) verification in backend that ensures high security.

Video Transcoder (Backend - node.js and express.js)

I built a simple video transcoder as backend that can convert video into **HLS** format using **ffmpeg** to learn how **Adaptive bitrate streaming** works.

Email spam detection (Backend - FastAPI) : Machine Learning

URI : <https://spamdetection-uktw.onrender.com/docs>

A built a machine learning model that can predict whether an email is ham or spam and deployed it as an api with the help of FastAPI as a backend on render.

Face Detection using OpenCV (Machine Learning)

A built a face detection project using **OpenCV** and Machine learning model that can detect faces on the basis of trained data that gave me a hand on experience how face detection works.

Academic and Extracurricular Achievements

- | | |
|---|-----------------------------|
| • Achieved maximum marks in the collage after 2 nd year examination. | 13 th Aug 2024 |
| • I have worked as a volunteer in my collage during freshers and farewell party. | 30 th April 2023 |
| • Attended 2 month of training program in Foundation course in artificial intelligence. | 4 th Feb 2025 |
