Experienced Frontend Engineer with 1 year of hands-on experience in HTML, CSS, JavaScript, and Typescript. Proficient in developing user interfaces and ensuring scalability, performance, and security. I have successfully leveraged my technical prowess to create visually appealing and highly functional web applications.

EXPERIENCE

Frontend Engineer

Sep 2022 - Nov 2023

Cumin360 Technology, India, Bengaluru

- As a Frontend Engineer, one of my key responsibilities is to be accountable for writing and rigorously testing high-quality code to ensure optimal performance and functionality of the user interface.
- Have hands on Experience on their **Edu-Tech Products** called **growOn** and **feeOn**
- **GrowOn** (Web Console) : It is used by School administrators for all school operations. It is developed on **Angular 9**. Where I solely deployed a feature.
- **FeeOn** : It is a **Finance Management** Product for schools, which enable them to manage their finance.
- This product was built on **React** with **Typescript**, resulting in significant improvement in user experience.
- I **solely developed** and deployed a feature called Transportation Module.

EDUCATION

Bachelor of Computer Application - Computer Application

Aug 2020 - Nov 2023

Huda National Arts, Commerce and Science Degree College, Bengaluru

During my BCA degree, I consistently stood out as an outstanding student, earning the coveted status of a merit student. This recognition underscores my dedication to success and positions me as a high-achieving individual in the realm of computer applications
