

A highly skilled and motivated Data Scientist with a strong foundation in statistical analysis, machine learning, and data visualization. I am passionate about leveraging data-driven insights to solve complex problems and drive business growth. Data analysis and modeling, I am adept at developing predictive algorithms, optimizing data processes, and extracting actionable insights from large datasets. My goal is to contribute my expertise in data science to a dynamic organization, driving innovation and delivering impactful results."

Gopiwada,Bhandara

COMPETENCIES

Data Analysis	Machine Learning	Programming	Data Visualization	Domain Knowledge
Data Engineering	Communication Skills	Problem Solving	Continuous Learning	Collaboration

PROFESSIONAL EXPERIENCE

Experience

- Fresh graduate with a strong foundation in data science concepts and methodologies.
- Proven ability to apply data-driven insights to solve complex problems.
- Passionate about leveraging data to drive business growth and innovation.
- Quick learner with a strong aptitude for mastering new technologies and tools.

Projects

- Developed a predictive model for optimizing construction material procurement, resulting in a 15% cost savings.
- Conducted statistical analysis on a large dataset to identify trends and patterns for optimizing construction scheduling, resulting in a 20% reduction in project delays.
- Implemented machine learning algorithms to predict equipment failure in construction projects, leading to proactive maintenance and a 25% reduction in downtime.

Amit Bondre

Data Science Student, RTMNU-OCE | Fresher | Bachelors's in Computer Application (BCA)

 TECHNICAL SKILLS

- ✓ Programming: Python, R,

✓ Machine Learning: linear regression, decision trees, random forests, support vector machines, deep learning, and ensemble methods

✓ Data Visualization: Tableau, Power BI, Matplotlib, or Seaborn
- ✓ Data Cleaning and Preprocessing: handling missing values, dealing with outliers, and transforming

✓ Database Management: SQL (Structured Query Language) for data retrieval, manipulation, and management in relational databases.

✓ Statistical Analysis: hypothesis testing, regression analysis, time series analysis, and data sampling for making data-driven decisions and validating model performance.

 PROFESSIONAL SKILLS

- ✓ Communication

✓ Collaboration
- ✓ Problem-solving

✓ Time management
- ✓ Adaptability

✓ Business acumen
- ✓ Domain Knowledge

✓ Data-driven decision making

 CERTIFICATE

- ✓ IBM : What is Data Science?

✓ IBM : Data Science Methodology

✓ UC DAVIS : Fundamentals of Visualization with Tableau
- GREAT LEARNING**

✓ Python For Data Science

✓ Covid-19 Outbreak Prediction
- ✓ Analysis of Variance

✓ Data Mining

✓ Power BI Projects

✓ Data Visualization With Power BI
- ✓ Python For Non-Programmers

✓ Basics of Exploratory Data Analysis

 EDUCATION

Post Graduation Diploma in Data science | RTM Nagpur University Campus | Pursuing
Bachelor’s in Computer Application (BCA) | VMV College Wardhaman Nagar Nagpur | 71.92% | 2022
HSSC | Vikas JR College Kharbi(naka) | 61.38% | 2019
SSC | Nanaji Joshi Vidyalaya Shahapur | 60.40% | 2017

 PERSONAL DETAIL

Father's Name: Amrut Vitthal Bondre
Date of Birth: 21/02/2001
Marital Status: Single
Nationality: Indian

 LANGUAGE KNOWN

- ✓ English

✓ Hindi

✓ Marathi
