SUMMARY

Aspiring Data Analyst with a strong foundation in statistical analysis, data visualization, and programming languages such as Python and SQL. Recent post-graduate with a keen interest in utilizing analytical skills and technical knowledge to drive impactful outcomes in a dynamic work environment.

EDUCATION & OTHER

- | | |
|--|-----------------------------------|
| ● Babasaheb Bhimrao Ambedkar University (BBAU), Lucknow
M.Sc. Statistics | 6.71 CGPA
Nov. 2022 - May 2024 |
| ● National Post-Graduate College (NPGC), Lucknow
B.Sc. (Statistics and Computers) | 5.7 FGPA
Jul 2019 - May 2022 |

TECHNICAL SKILLS

- Proficient in data manipulation and analysis using **Python** and **SQL**.
- Experience in creating data visualizations with **Power BI** and **MS-Excel** to convey complex insights.
- Strong understanding of **Statistical Methods** and their application in analyzing datasets and identifying trends.

INTERNSHIP

Data Analyst Intern at Unified Mentor Pvt. Ltd. ([Google Playstore](#) , [Netflix](#))

- Developed proficiency in Python libraries like **Pandas**, **Numpy**, **Matplotlib** and **Seaborn**.
- Applied **statistical methodologies** to analyze data, extract actionable insights.
- Worked on 2 projects namely **Google Play Store dataset** and **Netflix dataset**, uncovering useful insights.

PROJECTS

Anticipating Monkeypox Disease Using Machine Learning Models

- Conducted extensive data preprocessing, including cleaning and visualization in **Python**.
- Utilized Python libraries such as scikit-learn to build models, achieving a high accuracy rate.
- The best model among all the models in this study having highest accuracy was **MLP Classifier**.

HR Analytics ([Github](#))

- Data cleaning and preprocessing done using **power query editor**.
- Created comprehensive and interactive **Power BI** dashboards to analyze employee attrition trends.
- Conducted detailed analysis of employee attrition using factors such as tenure, department, job role etc.

Coffee Shop Sales ([Github](#) [Excel](#))

- Data analyzed using pivot table.
- Utilized different charts to create interactive dashboard in **Excel**.
- The main objective is to analyze retail sales data to gain actionable insights that will enhance the performance of coffee shop.

INTERESTS

- **Singing, dancing** and **making videos**.
- Participated in and won trophies at various dance competitions, demonstrating dedication and teamwork when it comes to group dance performance. Also participated in solo dance competitions.
