Profile Summary

Dedicated Computer Engineering graduate with foundational knowledge in software development. Proficient in tools like Git and Visual Studio Code, with exposure in Core Java. Committed to learning new technologies and contributing to innovative projects in collaborative environments.

Education

S B Patil college of engineering

December 2021 - June 2024

Computer Engineering Bachelors

CGPA:7.71

Karmaveer Bhaurao Patil Polytechnic

July 2019 - June 2021

Computer Engineering Diploma

PR:82.11

Technical Skills

Programming Languages: Core Java

Tools/Platforms: Git, VS code

Databases: SQL

Frameworks: Spring Boot, Hibernate

Operating Systems: Windows

Knowledge on: Artificial Intelligence, Machine Learning, JDBC, Thymeleaf, AWS

Internship

Project Intern

May 2024 - July 2024

Infosys Springboard

Remote

- Built a **Fuel Agency Operations Suite** to automate customer, cylinder, and supplier management using **Java**, **Spring Boot**, and **MySQL**.
- Improved **customer registration** and booking, increasing efficiency by **40%**.
- Enhanced **cylinder stock management**, reducing delays by **30%** with real-time tracking and reorder notifications.
- Developed **Supplier Management** and automated billing, improving coordination and booking accuracy by **35%** and **25%**, respectively.

Projects

Image or Video Metadata Using AI and Image Processing

- Built an **AI image processing system** achieving **95%+ accuracy** in generating metadata for images and videos.
- Used **image recognition algorithms** to analyze over **10,000+ images/videos** for content extraction.
- Enhanced metadata precision by **40%** with optimized generation logic.
- Trained models with **TensorFlow** and streamlined image processing via **OpenCV**, boosting processing speed by **30%**.
- Tested extensively across datasets to ensure **high reliability** and robustness.

Quiz Application using Java

- Developed a **Java Quiz App** with 50+ quizzes across topics and levels, featuring a responsive **GUI**.
- Added **real-time score tracking** and **feedback**, boosting engagement by **30%**.
- Used **Java Swing** for UI and **JDBC** to manage 1,000+ questions and user data.

Soft Skills

- Continuous learning
- Critical thinking
- Attention to detail
- Adaptability

Certifications

- Infosys : Java Foundation.
- Google : Project Management.
