Skills

Frontend: HTML, CSS, JavaScript (ES6+), TypeScript, React.js, Redux, Next.js, Sass/SCSS, Tailwind CSS

Backend: Node.js, Express.js, Go, GraphQL, MySQL, PostgreSQL, MongoDB

Testing: Jest, Cypress, Mocha

DevOps & Cloud: Google Cloud Platform (Firestore, App Engine, Compute Engine, Cloud Run), AWS (S3, EC2, Lambda), Docker, GitHub Actions

Blockchain: Ethereum, Solidity, Web3.js, Polygon, MetaMask, Hardhat

Tools & Others: Git, GitHub, Jira, Stripe, Figma, Postman

Soft Skills: Team Leadership, Mentoring, Problem-Solving, Collaboration, Time Management

Experience

SDE II

Aug 2023 – Present

Coreyo (Logistics Tech) — Bengaluru, India

- Coreyo is a logistics technology company that aggregates multiple logistics providers to provide a single platform.
- Led the frontend team to improve productivity and code quality, reviewing pull requests and mentoring junior developers.
- Migrated APIs from Nest.js (JavaScript) to Go, improving performance by 10× and reducing server costs drastically.
- Significantly reduced turnaround time for bug fixes by increasing team ownership and implementing productivity measures.
- Revamped the frontend codebase with modern React practices, improving maintainability and performance.
- Redesigned user journeys for key features to reduce friction as well as the number of steps required for booking orders.

Full Stack Developer

May 2022 – Aug 2023

Neon Sundae — Remote

- Neon Sundae is a decentralized platform for Web3 communities, designed to provide a transparent freelance marketplace.
- Built Solidity smart contracts for NFT minting and airdropping on an EVM blockchain (Polygon).
- Integrated ReactJS and MetaMask, gaining an in-depth understanding of how Web3 wallets function.
- Managed Google Cloud infrastructure for scalability and CI/CD.
- Spoke at Web3 event, increasing community engagement.

Full Stack Developer

Apr 2022 – Aug 2023

Inovatyv (IT Services) — Remote

Software Engineer

Oct 2020 – Mar 2022

Blur Social — Remote

- Blur Social was a social media platform that allowed users to share and discover content.
- Implemented JSON-based token authentication and Stripe payment integration with a subscription-based pricing model.
- Built social engagement features (likes, comments) to improve daily active user metrics.
- The app gained modest traction with around 20 active users and approximately 90 registered users.

Full Stack Developer

Sep 2020 – Mar 2022

Outofbox (IT Services) — Remote

Education

B.Tech in Computer Science

2012 – 2015

Graphic Era Hill University — Dehradun, India

Awards

- Secured first place in an international-level computer olympiad (Uttarakhand, India — 2006).
