WORK EXPERIENCE

CodeClouse

Intern | Project -1 : Youtube Clone

Aug 2023 – Sep 2023

Pune

- Description: Developed a functional YouTube clone using HTML and CSS, focusing on responsive design principles.
- Key Contributions: Implemented the main structure of the webpage, including navigation bars, video containers, and sidebars. Applied CSS styling for a polished and visually appealing user interface. Ensured responsiveness for a seamless viewing experience on various devices.

Project -1 : Restaurant Website

- Description: As an intern at Code Clause, I spearheaded the development of a dynamic Restaurant Website, leveraging HTML & CSS. This hands-on experience provided an immersive learning environment, allowing me to apply theoretical knowledge to real-world projects.

SKILLS

- Programming Language: HTML, CSS, JavaScript, Wordpress, React JS., php
- Key Skills: Data Structure & Algorithm, OOPs Concept,, SQL
- Other computer skills: Figma Design, Adobe Photoshop

PROJECT

Namami Gange - Varanasi Ghats and Temples Blog | HTML, CSS, JavaScript

<https://shivammishra45.github.io/NAMAMI-GANGE/>

Project Description: Designed and developed a visually appealing web page named "Namami Gange" showcasing the mesmerizing ghats and temples of Varanasi, Uttar Pradesh. The project aimed to provide a virtual exploration of the cultural and spiritual richness of the sacred city.

Portfolio | HTML, CSS, JavaScript

Project Description: Designed and developed a personal portfolio website showcasing skills, projects, and professional background. The project focused on creating a visually appealing and user-friendly interface using HTML and CSS.
