EDUCATION

Chandigarh University

Master's of Computer Application

Mohali

Aug. 2022 – May 2024

Kanpur University

Bachelor's of Science

Kanpur

Aug. 2019 – May 2022

EXPERIENCE

FrontEnd Engineer

Apr. 2025 – Present

Slate

India . Remote

- Built and maintained a scalable frontend using **Next.js**, focusing on SSR, dynamic routing, and reusable component-based architecture.
- Integrated **Instagram Graph API** and **Facebook OAuth** for social media login and data fetching (followers, posts, engagement).
- Used **OpenAI API** to generate real-time post insights and content improvement suggestions for users.
- Managed media uploads via **Cloudinary**, implemented carousel logic, and ensured responsive UI with **Tailwind CSS**.

Mern Stack Developer

Oct. 2024 – Apr.2025

Cunard Consulting

United Kingdom . Remote

- Developed and maintained full-stack web applications using the MERN stack, aligned with BIAN banking compliance standards.
- Designed and implemented RESTful APIs for secure answer verification workflows with session-aware role-based access control.
- Collaborated with cross-functional teams in a remote setup, participating in code reviews and agile development cycles.
- Enhanced frontend interfaces using React.js and Tailwind CSS for real-time updates and improved user experience.

Full Stack Developer

Jul 2024 – Dec 2024

Feufo

United States . Remote

- Build and maintain web applications using various technologies and frameworks
- Design and develop robust APIs for seamless integration between front- end and back-end systems
- Collaborate with the digital marketing team to enhance user experience
- Test applications for usability and troubleshoot any issues that arise

PROJECTS

Snatch Social | *MongoDB, Express, Node, Next, Tailwind, Cloudinary , OpenAI , Insta/Facebook API* Apr 2025 – Present

- Developed a fully responsive frontend in **Next.js**, enabling creators to upload and manage multimedia portfolios.
- Fetched Instagram media and analytics using **Facebook Graph API**, allowing creators to link their social presence.
- Generated audience insights using **OpenAI**, analyzing post data to suggest engagement strategies.
- Created modular dashboard components for post previews, project management, and admin/user role segregation.

Bian Banking Platform | *React.js, Redux, HTML5, CSS3, Node.js, Express.js, JWT*

Dec 2024 – Apr 2025

- Developed RESTful APIs for secure answer verification and banking compliance.
- Built frontend interface with real-time role-based answer verification logic.
- Secured access using JWT and role-aware authorization for users.
- Documented BIAN-compliant APIs for backend interoperability and domain-driven design.

TECHNICAL SKILLS

Languages: Python, JavaScript, HTML/CSS,

Frameworks: React, Node.js, WordPress, Express.js , Wix

Developer Tools: Git, Github, Cursor, VS Code, Notion

Libraries: Next.js **Database:** MongoDB, Mysql, Supabase, Redis **Others:** JWT, Clerk Authentication, Vercel, Render
