

SMRITI SADHU

Phone: +91 7029884429

Email: smritisadhu196@gmail.com

Address: Asansol, India | Date of Birth:

19/06/2003 [LINKEDIN](#) | [GITHUB](#) | [HACKERRANK](#) | [X](#)

PROFESSIONAL SUMMARY:

Highly skilled and results-driven software engineer with expertise in Python and extensive experience in Development. I am adept at designing, developing, and implementing innovative solutions to tackle complex business challenges. I eagerly opportunities to apply my technical proficiency and creativity to contribute to cutting-edge projects in a dynamic team environment.

SKILLS:

- **Languages:** Python, C, JAVA.
- **Backend / Databases:** SQL .
- **Frontend:** Html, Css, JavaScript.
- **Tools:** Git, Github, Jupyter Notebook, VSCode, Pycharm, Colab.
- **Subjects:** AI, Machine Learning, Neural Network, DBMS, DSA, Deep Learning.
- **Soft Skills:** Critical Thinking, Problem Solving, Process Improvement ,Ethical Judgement., Leadership

EDUCATIONS:

- **B.TECH** (*Artificial Intelligence and Machine Learning*) 2021-2025
ASANSOL ENGINEERING COLLEGE // CGPA: **8.63**
- **HIGHER SECONDARY** 2019-2021
ASANSOL KANYAPUR HIGH SCHOOL // Percentage: **80%**
- **SECONDARY** 2008-2019
U.G.M.K GIRLS' HIGH SCHOOL // Percentage: **72.85%**

INTERNSHIP:

- **Data Science Intern** | CELEBAL TECHNOLOGIES
 - ✓ **Analyzing** and deploying machine learning models to predict business outcomes by **analysing data**
 - ✓ Implementing **feature engineering** for decision-making.
 - ✓ Predicting accuracy and variance of data Large Datasets by **increasing accuracy by 35%**
 - ✓ **Improved code efficiency by 20%**
- **WEB DEVELOPER INTERN** | BHARAT INTERN
 - ✓ Developed and maintained web applications using HTML, CSS, JavaScript, and React.
 - ✓ Built responsive websites utilizing best practices in UI and UX design principles.
 - ✓ Designed webpages in accordance with company's product and services.

PROJECTS:

Web sentiment analysis to forecast automotive industry trends in the future

- **Objective:** Forecast automotive industry trends by analyzing sentiment from online sources.
- **Data Collection:** Scraped and processed 1M+ data points from Twitter, Reddit, and forums using BeautifulSoup and Selenium.
- **NLP Implementation:** Preprocessed text (tokenization, lemmatization) and classified sentiment using Python libraries (NLTK, SpaCy).
- **Model Development:** Trained Random Forest and SVM models for sentiment prediction, achieving 85% accuracy.
- **Forecasting Trends:** Used ARIMA for time-series analysis to predict trends in EV adoption, luxury cars, and autonomous vehicles.
- **Impact:** Identified a 20% increase in EV sentiment over 12 months and saved \$100,000 in market research costs.
- **Tools:** Python, Tableau, MySQL, Scikit-learn, and Twitter API.

CELESTIA AI || React.Js, MongoDB, Express.Js, Npm packages - sentiment analysis, GenAI api - Gemini-pro, Dar AI Marefa.

- ✓ **AI-Driven Interview Preparation:** Celestia AI generates relevant and personalized interview questions to help candidates practice effectively.
- ✓ **Insightful Feedback:** Provides detailed feedback, including sentiment analysis and suggestions, to improve responses and boost confidence.
- ✓ **Enhanced Candidate Readiness:** Designed to streamline the preparation process, ensuring candidates feel well-prepared for their interviews.

ACHIEVEMENTS:

- Organised and led numerous intra-college coding competitions and Hackathons.
- Hack4Bengal 3.0 participant
- Innovative Hardware Model Competition participant, advancing hardware design

HOBBIES:

- Sketching and drawing
- Keeping updates of Day-to-day social and **technical trends**.
- Engaging in Social Activities
- Learning Multiple Languages and reading books.

LANGUAGES:

- **ENGLISH** Proficiency- [FULL]
- **BENGALI** Proficiency- [NATIVE]
- **HINDI** Proficiency- [FULL]
