OBJECTIVE

A Computer Science and Engineering student with proficiency in Data Structures, Algorithms, Computer Science Fundamentals, and web development. Seeking software development roles to apply my technical skills, solve real-world problems, and contribute to innovative projects.

EDUCATION

Bachelor of Technology

Deen Dayal Upadhyaya Gorakhpur University (CGPA: 7.04)

Expected 2025

Coursework: Computer Science and Engineering

Intermediate Science (UP Board)

Sant Ravidas Inter College

2020-2021

High School (UP Board)

Mahatma Gandhi Inter College

2017-2018

TECHNICAL SKILLS

Programming Languages: C, C++, Python, Java, HTML, CSS, JavaScript, Node.js, React.js.

Libraries & Tools: Pandas, OpenCV, VS Code, MySQL, Express.js, Figma, Hadoop, Spark, Linux, MongoDB.

Operating Systems: Kali Linux, Ubuntu, Windows.

Soft Skills: Effective communicator, public speaking, collaborative abilities.

PROJECTS

- **SourcePass (Password Manager):** Engineered a secure, full-stack password management system using Node.js, Express.js, MongoDB, and EJS. Emphasized encrypted data storage and advanced user authentication mechanisms. Focused on crafting a responsive, visually compelling interface to enhance user experience. [GitHub](#).
- **DocMate Webapp:** Developed a full-stack document editing web application similar to Google Docs using the MERN stack (MongoDB, Express.js, React.js, Node.js). The application features real-time collaborative editing, user authentication, document storage and retrieval with MongoDB, RESTful API development using Express.js, and a dynamic front-end built with React.js. [GitHub](#).
- **Pong-Game-using-hand-gesture:** : Developed a motion-controlled Pong variant using webcam input. Players manipulate paddles via gestures, aiming to deflect a virtual ball. This innovative approach melds physical interactivity with classic gameplay, fostering an engrossing digital-kinetic experience. [GitHub](#).
- **Customer Billing System:** : Developed a Customer Billing System using C, enabling efficient management of customer transactions, invoicing, and payment processing. Implemented features for adding, updating, and deleting customer records, generating bills, and calculating total charges. [GitHub](#).

ACHIEVEMENTS

- **Cyber Security and Privacy (NPTL)** [Link](#)
- **UX Certification** [Link](#)

EXTRA-CURRICULAR ACTIVITIES

- **Enggtech Synod** - Operational Head - (Current)
- **Co-Coordinator** - Samsung Innovation Campus Program - (Current)
