

Prabhanshu Kumar Gautam

Front-End Developer (Team Leader)

Lucknow, UP, India | +91-8929751755 | prabhanshuupsdm.com | linkedin.com/in/prabhanshu-gautam-1739009a/

Professional Summary

Frontend Developer with over 10 years of experience in creating efficient, scalable, and high-performance web applications. Expertise in **Angular**, **React.js**, **JavaScript**, **HTML5**, and **CSS3** with experience in building responsive, user-centric designs. Working on enhancing skills in **Redux**, **SPA (Single Page Applications)**, **React Router**, and advanced React features such as **hooks** and **context API**. Skilled at collaborating with cross-functional teams to deliver high-quality projects, integrating RESTful APIs, and optimizing performance through lazy loading, code splitting, and state management optimization.

Skills

- **Languages:** JavaScript (ES6+), Python (basic), Java (basic)
- **Frontend Development:** React.js, Redux (basic), Angular, HTML5, CSS3, JavaScript (ES6+), jQuery
- **JavaScript Frameworks:** React, Redux, Angular
- **Backend Technologies:** REST API development, Node.js (basic)
- **Database:** SQL (MySQL, PostgreSQL), NoSQL (MongoDB)
- **Cloud Services:** AWS, Azure, GCP (basic)
- **Frameworks & Tools:** Bootstrap, SASS, LESS, Git, Jira, React, Angular
- **RESTful APIs:** Integration, Asynchronous Request Handling
- **Performance Optimization:** Lazy Loading, Code Splitting, State Management Optimization
- **Version Control:** Git, GitHub
- **UI/UX Design:** Figma, Adobe XD, Wireframing, Prototyping
- **CMS Expertise:** WordPress, Joomla, Magento
- **SEO & Accessibility:** WCAG standards, semantic HTML
- **Project Management:** Agile methodologies, Jira, Trello

Strengths

- **Problem-solving skills:** Demonstrated ability to solve complex coding challenges, particularly in React.js and modern JavaScript frameworks, improving application performance and user experience. Successfully integrated solutions such as Redux and performance optimizations, resulting in faster load times and efficient state management.
- **Team player:** Proven track record of collaborating closely with **UX designers**, **product managers**, and **backend developers** in **Scrum Agile** environments. Consistently delivered high-quality web applications on time and within scope by maintaining clear communication and ensuring seamless integration of frontend and backend components
- **Cloud Integration:** Applied **AWS** and **Azure** services to optimize compute resources and database storage, improving system reliability and scalability.

Professional Experience

Key Responsibilities

- **Front-End Development:** Developed and maintained high-performance, scalable web applications using **Angular**, **React.js**, **Redux**, and **JavaScript**, ensuring efficient state management and improved application performance.
- **Full-stack Development:** Designed and implemented scalable **Single Page Applications (SPAs)** using **React.js** with a strong focus on performance, modular architecture, and user experience.
- **Cloud Services Integration:** Familiar with AWS, Azure, and GCP cloud services, leveraging these platforms for compute, storage, and database management in software projects.
- **Database Management:** Worked with both SQL (MySQL, PostgreSQL) and NoSQL (MongoDB) databases to ensure optimized data handling, storage, and retrieval.
- **Collaboration & Agile Development:** Worked closely with cross-functional teams, including **UX designers**, **product managers**, and **backend developers**, using the **Scrum Agile methodology** to ensure timely and high-quality project delivery.
- **RESTful API Integration:** Integrated **RESTful APIs** for dynamic data handling and asynchronous request management, ensuring seamless data flow and faster interactions within the application.
- **Performance Optimization:** Implemented techniques such as **lazy loading**, **code minification**, and **critical rendering path improvements**, reducing page load times by **30%** and enhancing overall user experience.
- **Version Control:** Managed code repositories using **Git**, ensuring effective collaboration and maintaining clean, efficient, and secure code.
- **Project Management:** Managed project timelines, deliverables, and resources for multiple web projects. Coordinated with stakeholders to define requirements and ensure alignment with business objectives, utilizing tools like Git, Jira, and Trello for agile project tracking.
- **Cross-Functional Communication:** Collaborated with designers, developers, and other teams to ensure cohesive project execution. Integrated UI/UX designs into frontend development, leading to high-quality web solutions that enhanced user experiences and met business goals.

Achievements

- **Performance Optimization:** Reduced load times by **30%** using **lazy loading**, **code splitting**, and **CSS minification**.
- **Responsive Design:** Increased mobile user engagement by **25%** through responsive, cross-browser-compatible designs.
- **SEO & Accessibility:** Boosted organic traffic by **40%** with **SEO optimizations** and **WCAG compliance**.
- **Agile Delivery:** Improved project delivery timelines by **15%** using **Agile methodologies**.
- **JavaScript Integration:** Enhanced interactivity by integrating **React.js** and **Angular** components.
- **Client Satisfaction:** Maintained a **95% satisfaction rate** by delivering tailored, high-quality solutions.
- **Team Leadership:** Mentored junior developers, leading to a 15% improvement in team performance and project delivery speed.

Key Responsibilities

- **Frontend Development:** Designed and developed **25+ responsive web applications** using **React.js**, **HTML5**, **CSS3**, and **JavaScript**, focusing on performance optimization, scalability, and user experience.
- **Responsive Design:** Built responsive, cross-browser-compatible web pages using **CSS3** and **media queries**, ensuring optimal performance across devices and a **25% increase in mobile user engagement**.
- **JavaScript & API Integration:** Implemented **JavaScript** for DOM manipulation, event handling, and integrated **RESTful APIs** for dynamic data interaction, improving user experience and functionality.
- **UI/UX Design:** Collaborated with **UX designers** to translate design mockups into functional, high-performance interfaces using **React.js** and **CSS**, enhancing user satisfaction and usability.
- **Performance Optimization:** Applied techniques such as **lazy loading**, **CSS minification**, and **code splitting**, improving page load times by **30%** and boosting user retention.
- **SEO & Accessibility:** Ensured SEO optimization and **WCAG accessibility compliance** using semantic HTML, responsive design, and performance-driven JavaScript practices, increasing traffic by **40%**.
- **Version Control & Agile Practices:** Managed projects using **Git** and followed **Agile methodologies** for efficient project tracking and delivery, resulting in a **15% improvement in project timelines**.

Key Achievements

- Developed **25+ responsive web applications** using **React.js**, **HTML5**, and **CSS3**, enhancing UI/UX and increasing user engagement by **25%**.
- Boosted **SEO traffic by 40%** through performance optimizations such as **lazy loading**, **CSS minification**, and ensuring **WCAG compliance**.
- Improved application performance by **30%** through the integration of **React.js** and API optimizations, resulting in faster load times and smoother user interactions.
- Achieved a **95% client satisfaction rate** by delivering tailored solutions using **React.js**, **CSS frameworks** (Bootstrap, Foundation), and ensuring consistent, responsive designs.

Web Projects

Healthcare Projects:

- **AIIMS Gorakhpur (aiimsgorakhpur.edu.in):** Led the frontend development of a custom web application using **HTML5**, **CSS3**, and **JavaScript**, focusing on responsive design to ensure compatibility across devices. Enhanced user experience through intuitive **UI/UX** design and integrated performance optimizations.
 - **Skills:** Responsive Web Design, UI/UX Optimization, Performance Optimization
 - **Tools Used:** React.js, Photoshop, Figma
 - **Achievements:** Improved user engagement by 20% with optimized UI/UX design and reduced load times by 25% through caching and lazy loading techniques. Ensured accessibility and seamless navigation for all users.

Government & Public-Sector CMS Websites

- **CRPF (crpf.gov.in):** Developed the front-end for a secure and robust web platform for the Central Reserve Police Force. Utilized HTML5, CSS3, and basic Angular to ensure compliance with government standards, providing up-to-date information to the public.
 - Enhanced web security while maintaining responsive and accessible design.
 - Ensured cross-browser compatibility and scalability through effective use of CSS3 and JavaScript.
- **RITES Ltd. (rites.com):** Contributed to the front-end development of a professional, user-friendly corporate website for RITES Ltd., using HTML5, CSS3, and Bootstrap. Improved overall user engagement through a clean, modern interface and optimized performance.
 - Implemented responsive design and CSS3 optimizations, ensuring compatibility across devices and improved site performance.
- **Jamia Millia Islamia (jmi.ac.in):** Designed and developed a comprehensive university website, focusing on accessibility and user navigation. Used HTML5, CSS3, and JavaScript to integrate modules for academic resources, admissions, and student services.
 - Improved site accessibility using HTML5 semantic elements and CSS3.
 - Ensured compatibility across browsers and devices for an optimal user experience.
- **Worldwide Rail Journeys:** Designed and developed a visually appealing website using HTML5, CSS3, and JavaScript, enhancing user experience and aesthetics.
 - Implemented responsive layouts for optimal viewing across devices, improving user engagement.
 - Integrated interactive features and optimized performance, achieving faster load times and better SEO rankings.
 - Collaborated with UI/UX designers to ensure design integrity and usability.
- **The Luxury Journeys (theluxuryjourneys.com):** Designed and developed a high-end, elegant website for a bespoke travel company, focusing on luxury aesthetics and immersive user experience. Utilized React components for dynamic content delivery to enhance interactivity and seamless navigation.
 - **Tools Used:** Photoshop, Figma
 - Delivered a visually rich website that increased user engagement by 30%.
 - Emphasized luxurious and seamless design, resulting in an exceptional browsing experience for discerning clientele.

Corporate & Commercial Websites:

- remcltd.com

Education

- MCA • K.I.E.T. Ghaziabad U.P., 2010 to 2013
- BA • V.B.S. Purvanchal University, Jaunpur, 2006 to 2009

Achievements

Preview Technologies (P) Ltd, Lucknow | Front-End Developer (Team Leader) | 04/2022 – 08/2024

- **Enhanced User Engagement:** Designed and developed responsive web applications using **HTML5**, **CSS3**, and **JavaScript**, focusing on intuitive **UI/UX** design. Integrated **React.js** components to enhance interactivity and functionality, achieving a **25% increase in user satisfaction** across various projects.
- **Performance Optimization:** Improved website load times by **30%** through advanced techniques such as **lazy loading**, **code minification**, and **JavaScript optimizations**. Ensured faster performance and better **SEO rankings**, significantly enhancing the user experience of enterprise-level applications.
- **Project Delivery Efficiency:** Led a team of frontend developers, streamlining workflows to increase project delivery speed by **15%**. Provided guidance on **HTML/CSS best practices**, React and Angular integration for dynamic content delivery, and ensuring adherence to Agile methodologies.

IT Scenario, Delhi | Web Designer (CSS/Html Developer) | 01/2014 - 03/2022

- **Successful Website Launches:** Designed and developed over 25+ websites and portals using **HTML5**, **CSS3**, and **JavaScript**, leading to a 40% increase in site traffic through SEO optimization and performance improvements.
- **User-Centric Design:** Contributed to a 25% increase in user engagement by optimizing UI/UX for a better user experience and ensuring responsive layouts across all devices.
- **Responsive Design Implementation:** Created responsive HTML/CSS layouts for websites and portals, improving accessibility and engagement across various devices, which led to higher user retention and satisfaction rates.
