Summary

Frontend Developer with 2+ years of experience specializing in React, Redux, Vue, and React Native. Proven expertise in building high-performance, scalable web and mobile applications. Played a key role in developing and owning a comprehensive Fleet Management System dashboard with real-time tracking, analytics, and 3D vehicle visualization. Actively working on a React Native-based ordering app for a foreign client for over a year, focused on seamless user experience and performance. Skilled in modern UI libraries like Material-UI and Tailwind CSS, with a strong focus on user-centric design and cross-platform development.

Work Experience

Techflitter Solutions Pvt. Ltd. <i>Frontend Developer</i>	Ahmedabad, Gujarat Mar 2023 – Present
---	--

- Led the migration of the company’s primary product from Laravel to React, improving performance and scalability.
- Developed an additional product, enhancing the company’s offerings with a scalable, user-centric design.
- Optimized performance, reducing page load times by 40% and improving responsiveness.
- Built a fully responsive UI in React, ensuring seamless accessibility across all devices.
- Utilized Redux for state management, improving application reliability and debugging.
- Collaborated with designers and backend teams to deliver high-quality, user-friendly features.

Technical Skills

Languages: HTML5, CSS3, JavaScript, TypeScript
Frameworks/Libraries: React.js, React native, Next.js, Vue.js, Redux, Redux-Thunk, Material-UI, Tailwind CSS, Express.js, Node.js
Tools/Technologies: Vite, GitHub, Git, JIRA, Figma, Babel, Webpack, Dev Tools, VS Code
