EXPERIENCE

Web Development Intern | **OASIS INFOBYTE**

Feb 2023 – Mar 2023

- Engaged in a comprehensive virtual internship focused on the development of websites using different technologies.
- Gained hands-on experience with front-end technologies for building interactive user interfaces.
- Proficient in HTML, CSS, JavaScript, and familiarity with modern frameworks such as React.js.
- Proactively acquired knowledge of new technologies and frameworks through self-directed learning and mentorship.

PROJECTS

RESTAURANT RESERVATION :

Ongoing

- Developing a full-stack web application for booking restaurant reservations using the MERN stack (MongoDB, Express.js, React.js, Node.js). The system will allow users to seamlessly search for restaurants, view available time slots, and make reservations in real-time.
- The project will improve restaurant reservation efficiency by streamlining the booking process, reducing manual errors, and enhancing user satisfaction through an intuitive and responsive design.

NETFLIX CLONE:

Jan 2024

- This Clone project is a replica of the popular streaming service, Netflix. This endeavor aimed to recreate the user interface. Inspired by the sleek design and user-friendly layout of Netflix, this project was initiated to showcase frontend development skills.
- Showcased proficiency in front-end development and design by delivering a polished and functional interface that mirrors key aspects of a high-profile streaming platform.

PORTFOLIO :

Dec 2023- Jan 2024

- Developed a personal portfolio website to showcase professional skills, projects, and achievements.
- In the development of my personal portfolio website, I undertook the challenge of creating a dynamic and visually compelling platform to showcase my professional journey and accomplishments.
- Planning to integrate additional features like a client testimonial section, a downloadable resume, and advanced analytics to track user interactions and further optimize the website.
