Education

Noida Institute of Engineering and Technology

Bachelor of Technology in Computer Science

2020 – 2024

7.8 CGPA (Till 6th sem)

St. Anthony's Senior Secondary School

Intermediate

2019 – 2020

Percentage : 82.8

St. Anthony's Senior Secondary School

Matriculation

2017 – 2018

Percentage : 91

Projects

Spam Detector | *Python , Machine Learning , Neural Network*

March 2023

- Implemented data preprocessing and cleaning techniques to enhance model performance.
- Developed a machine learning-based spam detection system.
- Utilized Python and scikit-learn, applying NLP for effective feature extraction.
- Employed Naive Bayes, SVM, and Random Forest algorithms for model comparison and selection.

Netflix Clone | *Reactjs*

August 2023

- Constructed a Netflix clone utilizing ReactJS, Sass for styling, and the MovieDB API for dynamic content integration
- Demonstrated expertise in front-end development, UI design, and seamless API integration to recreate a user-friendly and visually appealing streaming platform experience
- Watchlist: Allow users to add movies and shows to their watchlist for easy access later
- Rating and reviews: Allow users to rate and leave reviews for movies and shows
- Categories and genres: Organize content into categories like "Action," "Comedy," etc.

Technical Skills

Languages/Frameworks: Python, HTML/CSS, SQL , AWS, JS , ReactJs

Developer tools/Technologies: Linux, GitHub, Cloud Computing, Data Analytics

Relevant Coursework

- Data Structures
- Database Management
- Networking Fundamentals
- Computer Architecture

Certifications

- Google Cloud Fundamentals: Core Infrastructure from Coursera
- Developing Cloud Apps with Node.js and React from Coursera
- Essential Google Cloud Infrastructure: Foundation from Coursera
- Introduction to Web Development with HTML, CSS, JavaScript from IBM
- Java Servlet Pages (JSPs) from Coursera
- Getting Started with GIT and GITHUB from Coursera

Hobbies

- Cricket
- Football
- Swimming
