Education

Integral University, Lucknow

B. Tech in Computer Science & Engineering

2022 - 2025

7.40/10 CGPA

Aligarh Muslim University, Aligarh

Diploma in Computer Science & Engineering

2019 - 2022

8.2/10 CGPA

Projects

Plant Disease Detection using Machine Learning

Tech Stack: Python, TensorFlow, Keras, OpenCV, Streamlit

- Built a deep learning-based image classification model to detect plant diseases from leaf images.
- Preprocessed and augmented dataset to improve model performance and prevent overfitting.
- Deployed a user-friendly web app using Streamlit for real-time disease prediction.

E-Commerce Website – Frontend Design

Tech Stack: HTML, CSS, JavaScript

- Designed and developed a responsive and modern user interface for an e-commerce platform.
- Implemented product listing, navigation, and cart UI components using React.js.
- Focused on mobile-friendly design principles and user experience best practices.

Voting System using Blockchain and Python

Tech Stack: Python, Flask, Blockchain Concepts, Cryptography

- Designed and implemented a secure online voting system integrating blockchain principles.
- Each vote was treated as a block, ensuring immutability and transparency.
- Used Python and Flask to create the backend, handling user sessions, encryption, and data integrity.
- Aimed to demonstrate a decentralized, tamper-proof approach to digital voting.

Work Experience

IBM Internship at Integral University

March 2024 – April 2024

Credit Card Fraud Detection Using Machine Learning

Remote

- I participated in a summer internship at Integral University, Lucknow, where I gained practical experience and developed valuable skills in machine learning.
- During the internship, I worked on real-world projects, enhancing my understanding of patterns and mechanisms.
- **Used:** Python, TensorFlow, Convolutional Neural Network

Technical Skills

Programming: C, Python, JavaScript

Machine Learning: Scikit-learn, NumPy, Pandas, OpenAI API

Data Science: Data Preprocessing, Feature Engineering, Model Evaluation

Web Development: HTML, CSS, JavaScript, ReactJS, NextJS, Tailwind CSS

Tools & Platforms: Git, GitHub, VS Code, Jupyter Notebook

Soft Skills: Problem-Solving, Critical Thinking, Collaboration, Adaptability

Participation

Code Club Lead Coordinator

March 2022 – present

Batch of 2025

Integral University (backed by University)

- Organized and led successful coding events and challenges.
- Fostered a collaborative environment for fellow students to enhance their programming skills.

Tech Club Member

Dec 2023

- Helped organise multiple events in the Integral University Tech Club, including a Cyber Security Awareness event and an International Technology Advancement event, among others.
