PROFESSIONAL SUMMARY

Software Developer — Expert in HTML, CSS, JavaScript — React.js — Next.js — Node.js Enthusiast

EDUCATION

Bachelor of Technology (Mechanical Engineering) RR Institute Of Modern Technology, Lucknow	2015 - 2019 Grade: 75.76%
Intermediate (Class XII) Saraswati Vidya Mandir, Lucknow	2014 - 2015 Grade: 66.8%
Matriculation (Class X) Saraswati Vidya Mandir, Lucknow	2012 - 2013 Grade: 7.8/10.0

EXPERIENCE

Software Developer Incaendo Technologies	February 2022 - Present <i>Noida</i>
I am a dedicated software engineer with 3 years of experience specializing in frontend and fullstack development . My expertise includes working with modern technologies like React.js, Next.js, and Node.js , alongside a strong foundation in HTML, CSS, JavaScript, and Bootstrap . I have a proven track record of delivering highquality web applications with a focus on performance, scalability, and user experience.	

PROJECTS

Hey! Food is ready, (Demo)	February 2024
• Developed the chef onboarding module, enabling seamless registration and profile setup for local chefs. • Implemented the feature to add cuisine dishes, allowing chefs to showcase their unique offerings on the platform. • Managed the login/logout functionality for secure and efficient user access. • Built and maintained user profiles, enabling chefs and customers to manage their preferences. • Developed and optimized the listing of chefs to provide an organized and searchable directory for users. • Created an enquiry page for users to easily inquire about services or place custom requests. • Technical Stack HTML, CSS, JavaScript, NextJs, NodeJs, Bootstrap.	
Recce,	July 2023
• Recce is a ios app used to Discover and share restaurant recommendations with friends. • An attractive interface that is helpful an user. • Features: You can discover restaurants, follow your friends, and share feedback. • Role: Devloper. • Technology used : HTML, CSS, JavaScript, React Native, Firebase, NodeJs	
The Seam, (Demo)	February 2022
• Developed and optimized key modules for "The Seam" web app, enhancing the user experience for cloth repair services. • Implemented a comprehensive quality control feature, including quality checks, image uploads, and customer request handling, ensuring high service standards. • Integrated a custom solution for assigning makers to projects, streamlining the process of cloth repair from customer submission to maker assignment. • Built and managed the admin panel for handling project assignments, customer communications, and price setting, improving overall operational efficiency. • Enhanced the image upload and preview functionality, ensuring seamless media management for both customers and makers.	

- **Technical Stack** HTML, CSS, React JS, Node JS, Javascript

CERTIFICATIONS

Newton School Coding Bootcamp Internship, Newton School

July 2021

1. Full Stack Development Along with Problem Solving.
2. Technical Stack Learnt:HTML, CSS, JAVA, JS, React JS.
3. Participated in various coding contests organized by the platform.
4. Worked On various projects (Facebook Login Page, Calculator, Spotify Clone, Weather App).

SKILLS

Computer Languages: TypeScript, JavaScript, CSS, HTML

Software Packages: React, Figma, Bootstrap, NodeJS, Redux

Additional Courses: Data Structure

Soft Skills: Communication Skills

EXTRA-CURRICULAR ACTIVITIES

1. I have participated in various coding programs held by Newton School.
2. Participated in Technical Seminar Held at my college on robotics.
3. Written prompt for chat GPT.
