SUMMARY

Motivated Computer Science student with strong skills in Java, Spring, Spring boot seeking an entry-level Software Engineer role. Eager to apply knowledge, contribute to a collaborative team, and grow in a fast-paced environment through continuous learning and skill development.

PROJECTS

Smart Contact Manager

[Github](#)

It is a cloud-based contact management application designed to streamline contact organization and access. Users can securely manage, search, and store their contacts on the cloud with an intuitive and responsive interface.

Technologies: HTML, CSS, Tailwind CSS, JavaScript, Java, Spring Boot, Spring Data JPA, Spring Data Redis, Spring Security, Spring Web, Thymeleaf, Validation, Google & GitHub OAuth, MySQL, Redis.

- **OAuth Integration:** Seamless login using Google and GitHub accounts for enhanced security and convenience.
- **Data Security:** Utilized MySQL with Hibernate for managing user data, video metadata. Ensured efficient querying and optimized storage of large video files.
- **Efficient Data Handling:** Uses Spring Data JPA with MySQL for reliable database operations, with Redis caching for faster load times and reduced server load.
- **Validation:** Built-in form validation ensures data accuracy and completeness.
- **Responsive Design:** The frontend is created with HTML, CSS, Tailwind CSS, and JavaScript, providing a clean and mobile-friendly user interface.
- **User-Friendly UI:** Incorporates Thymeleaf templates for dynamic rendering and a cohesive user experience.
- **Cloud-Powered:** Allows users to access their contact list from anywhere with real-time data synchronization.

E-Commerce Cake Shop

[Github](#)

Developed a responsive, secure online cake store where users can browse and purchase cakes. The platform includes user authentication, role-based access, and smooth shopping workflows.

Technologies: HTML, CSS, Java, Spring Boot, Spring Data JPA, Spring Security, Thymeleaf, MySQL, Google OAuth

- **User Authentication:** Integrated Google OAuth for secure user login and Spring Security for role-based access control.
- **Product Management:** Enabled efficient product listing, search, and categorization using Spring Data JPA and MySQL.
- **Responsive Design:** Built a user-friendly interface with HTML, CSS, Thymeleaf, and Spring Web for seamless browsing on all devices.
- **Form Validation:** Implemented robust validation to ensure accuracy and completeness in user input.
- **Order Processing:** Included features for order creation, tracking, and management.

SKILLS

Languages: C++, Java, Python

Core Concepts: Object-Oriented Programming (OOP), Data Structures and Algorithms (DSA)

Framework: SpringBoot, Spring Web, JPA, Spring Security, Spring Cloud, Junit, Mockito

Web Development: HTML, CSS, Tailwind CSS, REST API

Database: MySQL, Redis

Tools: Git, Github, Postman, Dorker, Swagger, Windows, Gradle

EDUCATION

BACHELOR OF COMPUTER APPLICATION

2021-2024

Kanpur Institute of Technology

CGPA - 8.05

CLASS - 12

2019-2021

Bishambhar Nath Sanatan Dharam Inter College

Percentage - 60%

ACHIEVEMENTS

- **Excellence Award 2023**
- **Winner(Engineers22 Nukkad Natak)**
