Internship

Shri Balaji Infotech

Web Development Intern

1 September 2023 – 1 October 2023

Offline

- Developed Web applications, ensuring high performance and adherence to coding standards, delivering reliable software.
- Evidence adaptability by learning and applying new Web technologies in software development during the internship.
- Done some projects that are E-Notebook and Flipkart clone.

TechnoHacks

Web Developer Intern

August 2023 – September 2023

Online

- Created responsive web applications with React.js, and implemented robust server-side solutions using Node.js.
- Conducted thorough testing and debugging, maintaining the reliability and performance of web projects.
- Demonstrated skills, addressing challenges encountered during website development to meet project milestones.

Projects

Business Consultancy Website | HTML, CSS, JavaScript

October 2023

- Developed responsive web page using HTML, CSS, and JavaScript, ensuring optimal user experience on the website.
- Implemented interactive contact forms and live chat feature, boosting user engagement by 40%.
- Conducted extensive testing and debugging, resolving issues promptly to maintain the website's seamless performance.
- Committed to ongoing learning, staying updated with emerging web technologies, and adapting industry best practices.

E-Notebook | Web Development

September 2023

- Engineered an E-Notebook website with backend using Web React, Node.js and MongoDB.
- Consistently sought opportunities for learning and improvement, staying updated with Web advancements.
- Conducted rigorous testing and optimization, enhancing performance.
- Demonstrating advanced coding and algorithmic skills.

Razorpay Clone | HTML, Tailwind CSS

August 2023

- Crafted Razorpay UI clone with HTML, Tailwind CSS, delivering an exclusive user experience through adaptive design.
- Exemplified consistently meeting milestones and deadlines, ensuring on-time project delivery.
- Kept up-to-date with HTML and Tailwind CSS advancements, staying aligned with industry best practices.
- Skillfully navigated technical challenges, contributing to the project's resounding success and client satisfaction.

Technical Skills

Languages: Java, HTML, CSS, JavaScript, Tailwind CSS, React, SQL

Developer Tools: VS Code, Eclipse, AWS Cloud Platform, IntelliJ IDEA

Technologies/Frameworks: GitHub, WordPress

Certifications

Java Development

August 2023 – September 2023

Balaji InfoTech

- Successfully completed an intensive Java development training program, mastering core Java concepts.
- Developed a solid foundation in Java technologies, enabling the creation of efficient and reliable software applications.

Computer System Security

August 2021 – March 2022

E & ICT Academy, IIT Kanpur

- Successfully completed a certified Computer System Security course, acquiring comprehensive knowledge in cybersecurity protocols, risk assessment.
- Exhibited a commitment to staying current with cybersecurity advancements and best practices, fostering a dynamic approach to security challenges.
