EDUCATION

Rajkiya Engineering College Sonbhadra (AKTU)

2020 – 2024

Bachelor of Technology in Computer Science Engineering - CGPA - 7.46

Sonbhadra, U.P

TECHNICAL SKILLS

Languages: Java, C++, HTML, CSS, JavaScript

Technologies/Frameworks: Spring Boot, Hibernate, Spring Security, Microservices, REST API, Collection Framework, Stream API, Tailwind CSS, React.js

Database: MySQL, MongoDB

Developer Tools: GitHub, VS Code, IntelliJ Idea, Postman, MySQL Workbench

EXPERIENCE

INTERN at 50 Hertz Private Limited 

Aug 2023 – Sept 2023

Delhi, India

- During my internship at 50 Hertz Pvt Ltd, I spearheaded the development of the **sidebar for the administrative page** of the website. I crafted an intuitive and visually appealing interface using HTML, CSS, JavaScript, and React. Additionally, I integrated **MUI icons** to enhance the user experience.
- My internship also afforded me the opportunity to delve into backend development, where I learned and implemented **Spring Boot framework**. Throughout this experience, I initiated and completed some impactful projects, showcasing my proficiency in frontend and backend technologies.

PROJECTS

ShopNest  | Java, Spring Boot, Spring Security, MySQL, ReactJs

Live 

- Developed a robust e-commerce platform using a full-stack approach with **Spring Boot** for the backend and **React** for the frontend.
- Orchestrated Spring Boot's prowess to architect a scalable **backend API**, driving functionality for **product listings**, secure **user authentication** using **JWT** token, and efficient order management.
- In this website these functionality added: **Order Controller, Product Controller, Cart Controller, Review and Ratings Controller, Admin panel**.
- **Technologies Used:-** JAVA, Spring Boot, Spring Security, Hibernate, MySQL, React.js, Redux, Tailwind CSS.

Hotel Rating Management System  | JAVA, Spring Boot, Spring Cloud, MySQL

- Developed a robust hotel rating management system using **microservices architecture** with Spring Boot, MySQL, and Spring Cloud.
- Utilized **five microservices** to ensure scalability, maintainability, and resilience: **User, Hotel, Rating, API Gateway, and Service Discovery**.
- Implemented **Service Discovery (Eureka Server)** for automated registration and discovery of microservices.
- **Technologies Used:-** Java, Spring Boot, Spring Cloud, Hibernate, MySQL.

Library Management System  | JAVA, Spring Boot, Hibernate, MySQL

- Developed a comprehensive Library Management System using Java and MySQL, **enabling efficient management of library resources and student registration**.
- Utilized MySQL database to **store and retrieve information**, ensuring data integrity and enabling robust reporting capabilities, such as generating overdue book reports and borrower transaction histories.
- **Technologies Used:-** JAVA, Spring Boot, Hibernate, MySQL.

COURSEWORK / SKILLS

- | | | | |
|-------------------|---------------------|---------------------|-----------------------|
| • Web Development | • OOPS Concept | • Data Structures & | • Database Management |
| • Java | • Operating Systems | Algorithms | System (DBMS) |

CERTIFICATIONS & EXTRACURRICULAR

- Completed 130+ coding Questions on [LeetCode](#) and other platforms, showcasing a strong grasp of DSA.
- Certified in Java Data Structures and Algorithm from MySirG.
- Achieved the position of captain for the college cricket team.
