Professional Summary

Frontend Developer with practical experience building full-stack web applications using the MERN stack. Strong foundation in React, Tailwind CSS, and JavaScript, with a passion for building intuitive UIs and solving real-world problems. Completed a web development internship at Hindalco Industries and built production-ready projects integrating APIs, authentication, and dashboards.

Education

Mangalmay Institute Of Management and Technology, Greater Noida BCA (Bachelor of Computer Applications) 71.69%	2022 – 2025
Jawahar Navodaya Vidyalaya, Jaunpur Senior Secondary (Class 12th), PCM Stream 83%	2022

Internship

IT Intern — Hindalco Industries Ltd, Renukoot	Jun 2025 – Aug 2025
- Completed a 2-month internship program focused on software fundamentals and web development immediately following final semester examinations - Participated in weekly sessions covering Core Java, OOPS, HTML, CSS, and JavaScript. - Developed a Shift Swap and Leave Management web application under mentorship, applying theoretical knowledge to real-world scheduling problems.	

Projects

devTinder — Full Stack MERN App	GitHub
- Engineered a full-stack developer matching platform using the MERN stack. - Implemented secure, token-based authentication (JWT) and developed a core matching algorithm based on user-defined skills. - Architected the backend to be scalable for future feature integrations. Tech: React, Node.js, Express, MongoDB, Tailwind CSS	
ShiftSwap — Full Stack MERN App	GitHub
- Developed a comprehensive shift management application featuring role-based access control (Admin/Employee) - Implemented dynamic request forms and engineered a Node.js backend service to automate scheduling logic, reducing potential manual conflicts. Tech: React, Node.js, Express, MongoDB, JWT, Tailwind CSS	
NetflixGPT — Frontend Project	GitHub
- Built a modern movie recommendation engine by integrating two external APIs: Google's Gemini AI for suggestions and the TMDB API for movie data. - Utilized Redux Toolkit for complex state management and implemented Firebase for secure user authentication, delivering an AI-driven user experience. Tech: React, Redux, Firebase, Gemini API, TMDB, Tailwind CSS	

Achievements & Hackathons

1st Prize — Inter-College Hackathon, IIMT College of Management	Oct 2024
- Won 1st prize by building a CRUD exam portal and solving a series of algorithmic challenges. - Contributed UI development and collaborated on DSA problem solving.	

Skills

Frontend:	React, Redux, JavaScript, HTML, CSS, Tailwind CSS
Backend:	Node.js, Express, MongoDB
Languages:	Java, C++, C
Tools/Platforms:	Git, GitHub, Firebase, REST APIs, MERN Stack
