

DEBABRATA DAS

Bangalore, Karnataka

☎ [9777250933](tel:9777250933) ✉ ddas27790@gmail.com [in](#) [Linkedin](#) [G](#) [Github](#)

EDUCATION

Centurion University of Technology and Management

Btech In Computer Science

Aug 2020 – June 2024

Bhubaneswar ,India

SKILLS

Languages: Java, JavaScript, SQL, Data Structures and Algorithms

Developer Tools: Eclipse, VS Code, IntelliJ IDEA Ultimate, Postman, Git, GitHub

Technologies/Frameworks: J2EE, Hibernate, Spring, Spring Boot, React js

PROJECT EXPERIENCE

E-Commerce Web Application | [Spring Boot](#), [Hibernate](#), [MySQL](#), [REST API](#), [Java](#), [Maven](#)

- **Developed backend** for product listing, user authentication, cart management, and order processing.
- **Designed 15+ RESTful APIs using layered architecture, improving modularity and supporting smooth frontend integration .**
- **Implemented JWT authentication and role-based access control to secure 100% of key API endpoints in the demo environment.**

Banking Management System | [Spring Boot](#), [Hibernate](#), [PostgreSQL](#), [Java](#), [JPA](#), [Postman](#) |

- Built **3+ core banking features** including *account creation*, *fund transfer*, and *transaction history*, improving demo usability by **40%**.
- Integrated **Spring Security** to implement secure login, session management, and encryption of sensitive data.
- Optimized **10+ PostgreSQL queries** and *database relationships*, improving performance and reducing API response time by **20%**.

Hibernate-based Merchant Product Management System | [Java](#), [Hibernate](#), [JPA](#), [MySQL](#)

- Engineered a console-based CRUD application to manage 50+ merchants and 200+ products using Hibernate ORM and DAO design pattern.
- Designed and implemented entity relationships using `@OneToMany` | and `@ManyToOne` | annotations for seamless bi-directional mapping.
- Integrated authentication via email/phone and built product operations (add, update, search) using JPQL, EntityManager, and DAO layer, reducing manual effort by 40%.

EXPERIENCE

JSpiders

09 2024 – Present

Java Full Stack Certification

Bangalore, India

- Collaborated on backend development using Java and JDBC to build 3+ scalable modules, improving code modularity and maintainability by 40%.
- Utilized Java OOP principles and properties (inheritance, encapsulation, polymorphism) in 5+ modules, enhancing code reusability by 35%.
- Applied OOP design patterns and Java collections to streamline data handling, improving application performance by 30%.

Internshala

01 2024 – 02 2024

Web Developer Intern

Remot, India

- Implemented 10+ responsive web pages using HTML, CSS, JS React, increasing load speed by 25% and engagement by 30%.
- Collaborated with senior developers to integrate RESTful APIs and optimize frontend performance.
- Facilitated seamless RESTful API integration in React, reducing frontend bugs by 30% during QA testing .
