EDUCATION

Graphic Era University, Dehradun

MCA

India

2023 – 25

Dehradun,

CSJM University, Kanpur Nagar

BCA

2020 - 23

Kanpur, India

TECHNICAL SKILLS

Programming Languages: C , JavaScript, Java.

Frameworks & Libraries: React ,Node, Express, Redux, Tailwind CSS,

Database ,Tools & Technologies: MongoDB ,MySQL, GitHub, VS Code

Core Concepts: OOPs,

Soft Skills: Individual Work, Team Collaboration, Problem Solving, Time Management, Communication

PROJECTS

Tomato Food Application — (React, Node, Express ,MongoDB)

- Developed a dynamic and responsive food ordering website inspired by Zomato, enabling users to browse food items, add to cart, and place orders. Integrated a user-friendly UI with category-wise filtering, search functionality, and optimized routing for seamless navigation.

Real Time Chat Application —(React, Redux ,Node, Express ,MongoDB)

- Created a real-time chat app where users can sign in, join chat rooms, and send/receive messages instantly using WebSockets. Implemented a responsive and interactive frontend with live updates.

Authentication System — (React, Redux, Node, Express, Nodemailer)

- Built a secure backend authentication server implementing JWT (JSON Web Token) for user login, signup, and protected routes. Included email verification and password reset functionality using Nodemailer.

EXPERIENCE

Technex IIT BHU 

Aug 2024 – Oct 2024

Web developer intern

- Collaborated with the frontend team to build and maintain responsive web pages using HTML5, CSS3, and JavaScript.
- Implemented pixel-perfect UI designs and ensured cross-browser compatibility.
- Enhanced user experience with interactive components like sliders, modals, and dropdowns.
- Optimized page performance by minimizing DOM manipulation and reducing CSS/JS file size.

ACHIEVEMENTS & CERTIFICATIONS

- Solved **280+ DSA problems** on LeetCode.
- Solved **100+ DSA problems** on GeeksforGeeks
- Earned **Top 50 SQL** and **50 Days badges** on LeetCode.
- Completed **Node.js Course** from Udemy
- Completed **React and JavaScript Course** from Simplilearn.
- Completed **Java Core** on Udemy.
