Profile

Enthusiastic and results-driven **Frontend Developer** with a demonstrated track record of transforming design concepts into engaging web experiences. With a passion for clean and efficient code, I bring **2 years 2 month** of hands-on **experience**. Committed to optimizing user interfaces for responsiveness and performance, Eager to contribute my skills in crafting exceptional user interfaces while staying abreast of emerging technologies in the dynamic world of frontend development.

Professional Experience

Websultanate Software Technologies Pvt. Ltd

Feb 2022 – Mar 2024

Frontend Developer

Lucknow, India

- Develop and implement user interfaces for websites and web applications.
- Create layouts and interfaces that are responsive and work seamlessly across various devices and screen sizes.
- Write clean, maintainable, and efficient code using HTML, CSS, and JavaScript (and related frameworks/libraries like React, Next).
- Collaborate with UI/UX designers to bridge the gap between design vision and technical implementation.
- Optimize web pages for speed and performance, considering factors like page load times and overall user experience.
- Communicate effectively with cross-functional teams, including backend developers, designers, and project managers.
- Successfully delivered 10+ projects, showcasing adept project management skills and ensuring timely completion.

Education

Khawaja Moinuddin Chishti Language University 🌐

Jul 2018 – Jun 2021

Bachelor of Computer Application (BCA)

Lucknow, India

Projects

Betsnext

Oct 2023 – Mar 2024

- As the lead frontend developer for BetsNext, I led the transformation of the gaming experience by implementing modern design principles and responsive techniques, ensuring seamless access across devices. Through performance optimization and innovative UI/UX features, I enhanced player engagement and satisfaction, collaborating closely with cross-functional teams to maintain industry standards. Prioritizing continuous learning and user feedback, I contributed to BetsNext's success as a pioneering crypto casino with a cutting-edge and user-centric frontend.

Casinosolano

May 2023 – Oct 2023

- As the lead frontend developer and designer at CasinoSolano, I have achieved notable milestones in transforming the user experience of the platform. Through a strategic redesign, I implemented modern design principles, ensuring a visually appealing and intuitive interface. My focus on responsive design significantly improved accessibility across various devices, while performance optimization techniques enhanced website speed and responsiveness. The introduction of innovative UI/UX features, collaboration with cross-functional teams, and adherence to industry standards further strengthened the platform. By prioritizing continuous learning and integrating user feedback, contributing to the overall success of CasinoSolano as a pioneering Bitcoin Cash casino with a cutting-edge and user-centric frontend.

Referrizer Marketplace

Aug 2022 – May 2023

- Embark on a journey of innovation and seamless connectivity with Referrizer Marketplace, a groundbreaking project where I played a pivotal role in shaping the digital landscape. As the driving force behind the front-end development, API integration, and the pursuit of pixel-perfect design, I ensured that every aspect of the user interface was not just functional but visually captivating.

Referrizer

Feb 2022 – Aug 2022

- The Referrizer website serves as a dynamic platform aimed at enhancing customer engagement and loyalty for businesses. As a frontend developer and designer, I've played a pivotal role in shaping the visual identity and user experience of the website.
