OBJECTIVE

A passionate and dedicated software developer seeking an opportunity in a forward-thinking organization where I can apply and expand my technical skills. I am eager to work on real-world projects, contribute to innovative solutions, and collaborate with talented teams. With a strong willingness to learn and adapt to new technologies, my goal is to build high-quality, scalable software that delivers value to users and supports organizational growth.

EDUCATION

Bachelor of Computer Application , Integral University (CGPA : 8.4)	2021- 2024
12th , Dawn Washco School (Percentage: 66)	2019 - 2021
10th , SRD Public School (Percentage: 74)	2017 - 2019

SKILLS

Technical Skills	: Java, JavaScript HTML5, CSS3, React.js, Bootstrap,Tailwind, GSAP, : Node.js, Express.js, MongoDB, Git, GitHub, WordPress, Figma.
Soft Skills	: Strong communication, quick learner, team leadership, adaptability, time management, : problem-solving, attention to detail, creativity, collaboration, and initiative.

PROJECTS

Google Gemini Clone Developed a fully functional clone of Google Gemini, implementing a chatbot interface. Integrated the Gemini API to fetch and display real-time data. Created light and dark modes with persistent themes and chat history storage in local storage. Enhanced user experience by adding dynamic DOM manipulation and responsive design principles. ([Try it here](#))

Task Manager. Developed a Task Manager application where an admin can assign tasks to employees and track past and current tasks. Built a User Panel for employees to view their assigned tasks in an intuitive interface. Implemented secure authentication for both admin and employees. Designed a fast and optimized UI using React with Vite for better performance and styled with Tailwind CSS. Focused on state management and API integration to ensure seamless task handling.([Try it here](#))

GSAP-Powered Animated Website Designed and developed a visually stunning website featuring animations using the GSAP library. Created smooth, high-performance animations to enhance user engagement and interactivity. Employed responsive design techniques to ensure compatibility across various devices and screen sizes. Utilized HTML, CSS, and JavaScript to build a seamless and intuitive user experience. Demonstrated proficiency in animation timing, easing functions, and dynamic content transitions.([Try it here](#))

EXTRA-CURRICULAR ACTIVITIES

- Showcased front-end development skills by creating an interactive and responsive website within a time-bound challenge, collaborating with peers and applying modern design principles.
- Assisted in the logistics, coordination, and execution of indoor sports events, ensuring smooth operations and participant engagement.

LEADERSHIP

- Led the department's carrom team in inter-departmental tournaments, demonstrating leadership, strategic thinking, and team coordination.
