WORK EXPERIENCE

Junior Web Developer

Logimetrix Techsolutions Pvt. Ltd (Lucknow)

05/2023 - 04/2024

Responsibility:-

- ▣ **Developed and maintained front-end components** using React, improving user engagement and interface performance.
- ▣ **Worked on the back end** using Node.js to build RESTful APIs, enhancing application functionality and data handling.
- ▣ **Integrated third-party services and APIs**, including payment gateways and social media platforms, to extend application capabilities.
- ▣ **Participated in code reviews** and pair programming sessions to maintain code quality and share knowledge with team members.
- ▣ **Assisted in database design and management** using MongoDB, ensuring data integrity and performance.

PROJECTS

E-commerce Website (06/2023 - 04/2024)

- ▣ Built a fully responsive e-commerce platform using React for the front-end and Node.js for the back-end.
- ▣ Integrated Stripe API for payment processing.
- ▣ Implemented a user authentication system using JWT.
- ▣ Deployed on MongoDB database .

E-Commerce for Automobile (03/2023 - 05/2023)

- ▣ A Single Page Application where users have a huge HTML expertise Database management software Programming varieties of various cars in a single platform. Users can create their own profile and save cars in their cart. Apart from this, I have given the admin authorization where admin can add vehicles, update vehicles and delete vehicles according to his need. Used Angular for the Front-End part, Spring boot and various microservices for backend.

EDUCATION

Secondary
