SUMMARY

Experienced in full-stack web development with JavaScript, React, Redux, Node.js, and Express.js. Skilled in building intuitive user interfaces with modern front-end libraries and developing secure, high-performance back-ends with MongoDB and JWT authentication. Proficient in Git, GitHub, and writing clean and maintainable code. Strong problem solving skills with the ability to debug complex issues and optimize application performance.

EDUCATION

B.Tech. , Computer Science & Engineering ~

Graduating August 2024

Dr. A. P. J. Abdul Kalam Technical University, Lucknow

7.4 CGPA

ABES Institute Of Technology, Ghaziabad

TECHNICAL SKILLS

Programming Languages: C++, JavaScript, Python

Frontend: HTML, CSS, JavaScript, React, Redux, Tailwind

Backend: Node.js, Express.js, MongoDB

Databases: SQL, MongoDB

Tools: Git, GitHub, Postman, Jest, AWS

COURSES

Namaste React

December 2024 – January 2025

- React fundamentals, hooks, state management, and performance optimization.
- Gained hands-on experience with bundlers like Parcel and performance optimization techniques.
- Developed a feature-rich food ordering app, optimized rendering with React Fiber, implemented SSR, and integrated APIs.

Namaste Nodejs

February 2025 – Ongoing

- Focused on backend development, including event-driven programming, Express.js, and database integration.
- Built a scalable RESTful API using Express.js and MongoDB, ensuring efficient data handling and retrieval..
- Implemented JWT authentication and role-based access control for secure authorization.

PROJECTS

Food Delivery Express ~

Tools: React-Redux-Tailwind

- Developed a feature-rich food delivery app with restaurant browsing, menu display, and cart management.
- Optimized performance using Parcel for bundling, enabling hot module replacement (HMR), and reducing.
- Designed reusable, responsive UI components with Tailwind CSS and ensured application reliability with .

My-Youtube ~

Tools: React-Redux-Tailwind

- Built a YouTube-like application with dynamic routing, state management, and modular component-based-Designed a responsive UI including Header, Sidebar, and Watch Page while optimizing API.
- Applied best practices for centralized state management and error handling.
- Key Achievements: Improved scalability and maintained modularity for future updates.

CERTIFICATIONS

Javascript: Namaste Javascript ~

Node.js: Namaste Node.js ~

Frontend Development: React.js ~

Version Control: Git ~
