SUMMARY

- Aspiring React Developer with 4 months of hands-on internship experience working on live projects. Proficient in building responsive web applications using React.js, Redux Toolkit, and Material UI. Experienced in integrating REST APIs, managing component-based architecture, and working with real-time data. Eager to contribute to impactful projects, learn continuously, and grow as a front-end developer in a professional environment.

KEY SKILLS (Tech and soft)

- ✓ **Frontend:** React.js, JavaScript, HTML5, CSS3, Bootstrap, Material UI, Redux Toolkit, Axios
- ✓ **Backend (Basic):** Node.js, Express.js
- ✓ **Database:** MySQL, MongoDB (basic)
- ✓ **Tools:** Git, GitHub, VS Code, Postman, JSON Server
- ✓ **Others:** REST APIs, Protected Routes, JWT, Deployment (Render, Vercel)

WORK EXPERIENCE

React Developer Intern

IT Idol Technologies – Valsad

Jan2025 – Apr 2025

Key Responsibilities:

Developed and maintained dynamic web components using React.js based on live project requirements. Integrated APIs to fetch, display, and manage data using Axios and React hooks. Participated in daily stand-up meetings, code reviews, and version control using Git. Debugged and optimized components to enhance performance and user experience. Learned and applied concepts of protected routing and role-based access in a multi-dashboard application.

ACADEMIC PROJECTS

Project 1: Portfolio Website

Oct2022- Nov2022

Developed a personal portfolio website using React to showcase projects, skills, and experience. Built with a responsive layout and component-based architecture for smooth navigation and maintainability. Implemented interactive features like animated project displays, smooth scrolling, and dynamic content filtering using custom React logic. Optimized for performance and mobile compatibility.

Project 2: Admin Dashboard App

Jan2024-Mar2024

Developed a role-based Admin Dashboard using React, Redux Toolkit, and Material UI to manage users and data efficiently. Integrated secure login with JWT authentication and implemented CRUD operations with MySQL via a Node.js backend. Designed responsive layouts and dynamic tables using DataGrid with filters, pagination, and modals. Deployed the full-stack application using Render and Vercel for seamless user access.

Project 3: E-Commerce Store

Oct2023-Apr2024

Developed an E-Commerce Website using React to simulate a real online shopping experience. Implemented a clean and intuitive user interface with dynamic routing and component-based architecture. Key features include product listings, detailed product pages, shopping cart functionality, and a seamless checkout process.

EDUCATION

- ✓ **Bachelors in information technology(pursuing)** with 7+ CGPA from P.P Savani University, Surat in year 2021-2025.
- ✓ **HSC** in Science with **53.23%** from Shaswat Academy in year 2020-2021.
- ✓ **SSC** in General with **64%** from Shaswat Academy in year 2018-2019.

OTHER CERTIFICATIONS

- ✓ Full stack web development course from Infosys springboard.
- ✓ Completed the web development course from Coursera.
- ✓ Completed Principles of Crash Course on Python course from Coursera.
