

MD ADIL ALAM

Full Stack Web Developer

Objectives: I'm a Full Stack Web Developer excited about building user-friendly websites. I'm looking for a role where I can use my skills in both frontend and backend development to contribute to interesting projects. I'm eager to join a dynamic team, create great websites, and keep learning and growing in web development.

COURSEWORK

INTERNSHALA TRAININGS

2023 - 2024

Full Stack Web Development

- I have completed a 6-month Full Stack Development course from **Internshala Trainings**.
- where I covered both **frontend** and **backend** development. I achieved an excellent score and received certificates.
- Throughout the course, I gained proficiency in HTML, CSS, JavaScript, Node.js, React.js, Bootstrap, and worked with databases like MongoDB and MySQL.
- I successfully completed various projects, including an Ecommerce web app, a Social media app, and a Sales app.
- These experiences have equipped me with valuable skills and practical knowledge in web development.
