Skills

- **Languages & Frameworks:** PHP | Node | Express | Mongoose | Javascript | Socket io | REST APIs | Bootstrap | Tailwind | JQuery | Laravel8 | Bash | React | Redux | GraphQL | PM2 | Ejs | Passport | learning Typescript
- **Tools & Platforms:** AWS | Azure | IBMCloud | Scaleway | Jenkins CI/CD | Citrix Hypervisor | Git | Docker | Github | Postman | VS Code | Budibase | CloudFlare | Slack
- **OS:** Windows | Linux | Mac
- **Database:** MySQL | MongoDB
- **Other:** Distributed Systems | Frontend | Backend | Full-Stack | English, Hindi, Japanese– All professional proficiency or above, except Japanese

Experience 3yrs

Technology Solution Partner

Scaleway

Remote 11/2022 - 06/2023

Worked closely with the scaleway's solution architect manager and VP Startup with our aim to provide cloud-based virtualization tools and ready-to-run setups with minimal overhead, deployed either on cloud or self-hosted servers.

Backend Developer in NodeJs & PHP

Zeupiter

Remote (Canada) 01/2022 - 08/2022

- Design, develop and maintain scalable web services that operate in the back end.
- Participate in code reviews.
- Build REST/GraphQL APIs in NodeJS & PHP and integrate AWS into zeupiter's platform utilizing AWS-sdk in both the ends.
- Write technical documentation (scoping documents, technical guides on open-source solutions, etc).
- Design and implement new functionalities, both technical and business-related, which is my favorite.
- Develop the foundational infrastructure services to prepare for building or moving a system to the cloud.
- Implement PHP Libvirt APIs and optimizing bare metal KVM servers in a hybrid cloud environment.
- Handling docker containers and optimizing NoSQL DB structures and PM2 processes on Linux servers.

Web Developer & System Administrator

FutureNet Group

Kanpur, U.P (India) 07/2019 - 08/2021

- Building internal and external tools and csv reports and fetching csv data.
- Managing the institute's main website.
- Managing LAMP servers on AWS.
- Integrating 3rd Party APIs and Authentication in NodeJS.
- Optimizing and creating MYSQL DB Structures.

Internship

FutureNet Group

Unnao, U.P 12/2018 - 06/2019

Education

B.COM

CSJM University

Kanpur, U.P 2016 - 2019

MCA

CSJM University

Kanpur, U.P 2019 - 2022

High-School & Intermediate

St. Judes College

Unnao, U.P

- X (ICSE Board) Commerce with Computer Science - 86% Grade A
- XII (ISC Board) Commerce with Computer Science - 76% Grade A

Course on Computer Concepts (CCC), Certificate

NIELIT

O'LEVEL, Diploma (Incomplete)

NIELIT

Projects

- **ARCLIGHT:** A lightweight Proxmox VE substitute and an open source server virtualization management solution based on QEMU/KVM. Manage virtual machines, containers, highly available clusters, storage and networks with an integrated, easy-to-use web interface or via CLI.

Achievements / Workshops / Certificates

- NVIDIA Incubation Member (at present), [TCS certificate](#), Selected in IBM Startup program (2019-2021) as a premier member for building a [cloud gaming service](#) which in total reached >500 users within a month of beta launch, [Freecodecamp](#), [HackerRank](#).
