PROFESSIONAL SUMMARY

Motivated Computer Science and Engineering undergraduate with strong programming fundamentals and hands-on project experience in web and software development. Skilled in building applications using C, C++, Python, and modern web technologies. Actively developing scalable solutions and seeking an entry-level software development role to contribute technical expertise while continuing professional growth.

EDUCATION

Bachelor of Technology in Computer Science and Engineering Aug 2022 – Present
Krishna Institute of Technology, Kanpur Nagar, UP CGPA: 8.77/10
Key Coursework: Data Structures & Algorithms, Operating Systems, Modern C++, Software Engineering, Python Programming

Higher Secondary Education (Class 12) 2022
B.P.M.G. Inter College, Mandhana, Kanpur Nagar Percentage: 72.8%

Secondary Education (Class 10) 2020
B.P.M.G. Inter College, Mandhana, Kanpur Nagar Percentage: 85%

PROJECTS

AI Voice Recruiter Agent Oct 2025
Tech: Next.js, OpenAI API, JavaScript, CSS3

- Built an AI-powered recruiter with speech recognition and text-to-speech.
- Automated candidate screening and profile generation.
- Implemented natural language understanding to analyze candidate responses.
- Developed a scalable solution to reduce recruiter effort and accelerate the hiring process.

YouTube Video Manager Jun 2025
Tech: Python, SQLite3

- Developed a desktop application to manage YouTube video records with Python and SQLite.
- Implemented features to add, list, and delete video entries with persistent storage.
- Designed a structured database schema for efficient data handling.
- Strengthened practical skills in database management and Python application development.

Notepad Application Dec 2024
Tech: Python, Tkinter

- Created a notepad application with essential text-editing features.
- Implemented core functionalities such as create, open, save, edit, and exit.
- Gained experience in GUI design and event-driven programming.

Personal Portfolio Website Jan 2024
Tech: HTML5, CSS3, JavaScript, Responsive Web Design

- Designed and developed a personal portfolio website to showcase projects and technical skills.
- Implemented responsive web design principles for cross-device compatibility.
- Applied modern CSS and JavaScript to enhance interactivity.

SKILLS

Programming Languages: C, Python, C++

Web Technologies: HTML5, CSS3, JavaScript, Responsive Web Design

Mobile Development: Android Studio (Java)

Databases: MySQL, MongoDB (Basic)

Tools & Platforms: Git, GitHub, GitHub Pages, VS Code

APIs: Gemini API Integration

CERTIFICATIONS

• C++ Programming — NPTEL (IIT Kharagpur)	May 2025
• Data Structures & Algorithms — PhysicsWallah	Feb 2025
• Python Programming — RCPL, Kanpur	Dec 2024
• Java Programming — KTCS India	Aug 2024
• C Programming — PRUTOR (IIT Kanpur)	Dec 2023

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

- Organized and managed coding competitions and hackathons for 100+ students on HackerRank.
- Coordinated department-level coding workshops, improving peer learning outcomes by 30%.
- Mentored 20+ students in C programming.
- Volunteered in technical events and seminars, contributing to the college's technical community.

ADDITIONAL INFORMATION

Languages: English , Hindi (Native)

Availability: Open to relocation and remote opportunities

Interests: Competitive Programming, Open Source Contribution, AI/ML Technologies, Python Development
