Leveraging rich experience in **Mobile Application Development**, focusing on **innovative solutions for iOS platforms**, particularly enhancing user engagement and satisfaction, **preferably in Lucknow/Delhi Ncr.**

PROFILE SUMMARY

- Accomplished **Senior iOS Developer with over 12 years of experience** in designing, developing, and deploying high-performing iOS applications for both **iPhone and iPad platforms**. Proficient in Swift and Objective-C with a strong understanding of Apple's Human Interface Guidelines. Skilled in leading development teams, ensuring timely project delivery, and employing Agile methodologies to promote a culture of continuous improvement. Adept at translating complex business requirements into seamless user experiences
- Currently working as a **Sr. iOS Developer in Appypie Noida India**, collaborating with a skilled team to achieve project milestones and foster a dynamic and collaborative work environment.
- Realized substantial enhancements in work efficiency and project timelines through the strategic application of Agile methodologies, promoting a culture of continuous improvement.
- Provided insightful knowledge of business process analysis (As-Is, To-Be) and design; managed application based process re-engineering, process optimization, cost control & revenue maximization from technical solutions using cutting-edge technologies.
- Expertise in mobile application architecture patterns such as **MVC and MVVM**, facilitating the design of scalable and maintainable applications that adapt to changing business requirements.
- Proficient in a wide array of programming languages and frameworks, including **Swift, Objective-C, and Xcode**, which enables the development of robust and scalable mobile applications tailored to meet diverse client needs and industry standards
- Showcased a grasp of cloud services and third-party integrations, ensuring optimal functionality and performance of mobile applications in a competitive landscape.
- Knowledge of **AI Tools: Cursor UI, Copilot.**

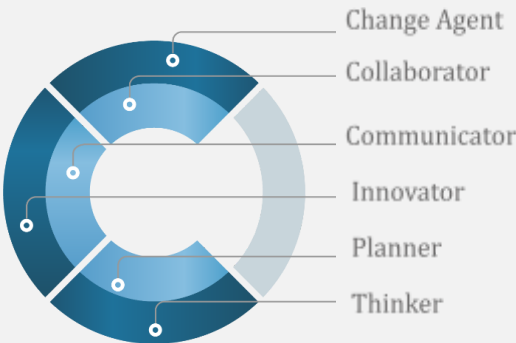

CORE COMPETENCIES

- Software Development Lifecycle
- Unit Testing & System Integration Testing
- Agile Methodology
- Quality Assurance & Testing
- Project Management
- Team Management
- Software Development Framework
- Solution Architecture
- Security & Networking

SOFT SKILLS

PROJECTS

- CPA Reviewer**
